MINUTES OF A REGULAR MEETING OF THE BOARD OF DIRECTORS OF TARRANT COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NUMBER ONE HELD IN THE DISTRICT OFFICE, IN FORT WORTH, TEXAS, ON THE 11TH DAY OF MARCH, 1937, AT 2:30 P.M.

The call of the roll disclosed the presence, or absence of Directors, as follows, viz:

#### PRESENT

#### **ABSENT**

W. S. Cooke (Out of the City)

. ඉ

C. A. Hickman

E. E. Bewley

W. K. Stripling

Joe B. Hugsett

At this meeting C. A. Hickman, President, presided; and Director Stripling acted in his capacity as Secretary, whereupon proceedings were had and done, as follows:

1.

Minutes of the meeting held on February 20, 1937, were read, approved and ordered of record.

2.

Mr. Clifton W. Moore appeared before the Directors to present his contention that at the time he leased from the District the Porter Tract of land Mr. Duke represented to him that the lease would include the 3/4 acre triangle of land on the northerly side of the road; and that the subsequent lease of that tract of land to W. C. Cantrell had produced a condition that materially decreased the desirability of the land lying on the south side of the road. Further that, he stood ready to pay a substantial bonus, if required to do so, in order to have possession of the land which he believed to be embraced in his lease proposal. Upon consideration of this matter, Director Stripling made a motion, seconded by Director Hogsett, that the District do not consummate a contract with W. C. Cantrell for a lease on the 3/4 acre tract of land; that the prior authorization for that lease be rescinded; that the Attorneys for the District be authorized to seek surrender of the possession of the land by Mr. Cantrell and his family, as consideration therefor to return to W. C. Can-

trell the \$10.00 theretofore deposited by him as a good faith payment under his proposal; and, in addition thereto, to pay to Mr. Cantrell as a bonus a sum not to exceed \$25.00, in order to induce a prompt surrender of the possession of the land without the incurring of costs in a proceeding for roreible entry and detainer. Upon a vote being taken, the motion was carried and it was so ordered.

3•

Attached to these minutes as Exhibit "A" is a statement of the rinancial condition of this District as of this date. This shows consecutive and inclusive voucher-checks issued since the last statement for a total sum of \$723.26. It also shows proposed voucher-checks consecutive and inclusive serial Nos. 5205 to 5308 for the total sum of \$215,352.28. There was consideration of these proposed checks, together with the data to support the same; whereupon Director Stripling made a motion, seconded by Director Hogsett, that each of the proposed accounts and the checks for the payment of same, except voucher-check #5308, payable to Cage Bros. and J. C. Ruby (reserved for later consideration) be approved for payment and that the checks be executed and delivered to the persons entitled to receive the same. Upon a vote being taken, the motion was carried and it was so ordered.

4.

Attached to these minutes as Exhibit "B" is the estimate of the District's engineers to cover proposed partial payment #5 to Cage Bros. and J. C. Ruby, for the sum \$5,061.09, to cover the value of work performed on Section "B" of the District's levee (P.W.A. Docket No. 5984), during the month of rebruary 1937. There was consideration of this estimate and the advice of the engineers directing the payment of the account; whereupon Director Hogsett made a motion, seconded by Director Stripling, that the estimate be approved for payment and that the District's voucher-check No. 5308, payable to Cage Bros. and J. C. Ruby for the sum of \$5,061.09 be executed and delivered to them in payment of the account.

The Directors considered the existing conditions of the area of land known as "Easement A" of the tract of land purchased by the District from W.J. Porter and were of the opinion that this land should be fenced in order to give evidence of the District's ownership and exclusive right of possession; whereupon Director Stripling made a motion, seconded by Director Bewley, that the engineers for the District be requested to proceed promptly to enclose, within a lawful fence, the indicated area of land. Upon a vote being taken, the motion was carried and it was so ordered.

6.

Attached to these minutes as Exhibit "C" is a proposed copy of the Notice to Banks of Tarrant County to make bids to serve this District as Depositary for the ensuing two years. Reference here is made to the exhibit to the same effect as though it was fully set out at this place. Upon consideration of the proposal, Director Stripling made a motion, that the advertisement of notice as written do be duly published in both the Fort Worth Press and the Fort Worth Star Telegram in their issues of March 15th, 22nd and 29th. Further that, receipt of bids, the opening thereof and the awarding of contract thereunder do be made in accordance with the notice and the law appropriate to control this matter. The motion was seconded by Director Bewley. Upon a vote being taken, the motion was carried and it was so ordered.

7.

There was presented to the Directors advice of Mr. Charles S. Clark, as Chairman of the State Planning Board's Committee on Water Resources, wherewith he enclosed copy of H.B. #865 by Herlin, et al, proposing a tax of twenty-five (25¢) per acre on water permits actually used for irrigation purposes and one dollar (\$1.00) per acre on permits for irrigation where the water is not being actually used, also providing for the cancellation of permits for non-pay-

ment of the proposed taxes. It was the sense of the Directors that the tax in the case of this District would prove to be confiscatory and utterly deprive the taxpayers of the District of the ultimate benefits of the money expended by them for the purpose of storing water. Farticularly was it considered that the conditions under which this District was organized and which it has proceeded has forced upon the District a long waiting period wherein beneficial use of stored water may be developed, for one useful purpose or for another. Further that, the proposed tax would wholly deny to this District any opportunity for the prudent development of the uses of its water and thereby prove confiscatory in nature. Wherefore, Director Hogsett made a motion, seconded by Director Bewley, that the District request counsel to be in Austin on March loth and present the view point of the Directors of this District in the State wide conference to be held in Austin on that date as suggested in the letter of Mr. Clark. Upon a vote being taken, the motion was unanimously carried and it was so ordered.

8.

There was presented to the Directors a duplicate of the assignment whereby J. M. Rountree on the 23rd day of rebruary 1937 assigned to L. Lind the lease heretofore authorized by the District to be made to J. M. Rountree and L. Lind, which formal lease has not yet been executed. Accompanying this assignment was advice of Mr. Hal McConnell, attorney for Mr. Lind, wherewith he enciosed the stated assignment and made request that the formal lease omit Mr. Rountree as a party and that it be made out to the exclusive benefit of Mr. L. Lind. There was full consideration of this matter, whereupon Director Bewley made a motion, seconded by Director Hogsett, that the assignment and request be observed and that the formal lease be executed for the use and benefit of L. Lind, individually. Upon a vote being taken, the motion was carried and it was so ordered.

servance of proposed legislation by the present legislature (now in session),
Director Hogsett made a motion, seconded by Director Bewley, that Ireland Hampton be authorized to procure service of advice concerning the introduction of
bills affecting the affairs of Water Control and Improvement Districts, in order
that the District may be promptly advised of all proposals injurious to the best
interest of the electors of this District, provided that, the service may be procured at a cost deemed by him to be reasonable. Upon a vote being taken, the
motion was carried and it was so ordered.

10.

Director Hickman presented a communication signed by Geo. W. Duke, dated rebruary 12, relating to a request made by Robert P. Pope to be authorized to procure materials set forth in an inventory attached to the communication, estimated to cost \$68.40. and particularly including sixteen (16) squares of shingles at a cost of \$67.00. Mr. Pope also desired the right to wreck an old chicken house and buggy house and salvage thematerials, to be used in building a garage 10' x 16. which would require the procural of materials for a roof for the garage. The improvements in question are those located on the District's Tract No. 258. purchased from R. A. Pope. Mr. Duke made recommendation that the District authorize the repairs and pay the cost of the listed materials, together with the cost of sufficient galvanized iron roofing to provide a roof for the proposed garage, subject to the requirement that Mr. Pope will do everything required to complete the proposed improvements without any cost whatever to the District, other than the cost of the materials as specified. Upon consideration of this matter, Director Hogsett made a motion, seconded by Director Bewley, that the request of Mr. Pope, as recommended by Mr. Duke, be granted and the stated materials paid for upon production of the proper vouchers showing the actual cost thereof. Upon a wote being taken, the motion was carried and it was so ordered.

11.

There was presented the written communication of Mr. Geo. W. Duke re-

commending that the District authorize Mr. O. W. Sparks to purchase such parts and well equipment as might be required to place in condition for service the well and pump located on the land of the District (District's Tract No. 328) now under lease to Mr. Sparks, upon condition that Mr. Sparks would pay the cost of all transportation and labor necessary to recondition the well and its equipment. There was full consideration of this matter and it was the sense of the Directors that the request should be granted, subject to approval of the method of accomplishing the object and the cost of the several items by President Hickman. It was so ordered.

12.

President Hickman delivered to Mr. Cheatham for deposit by the District the sum of \$7.00, money to cover the price of 35 yards of sand, at 20% a yard taken by Mr. Yoakum from land of the District under his prior proposal to take a total of not to exceed 50 yards of sand at the stated price per yard, the sand to be used in the construction of a School Improvement in the town of Newark: Receipt of payment as stated was approved by the Directors.

13.

Mr. Cheatham exhibited to the Directors the very poor condition of the District's check writer which was due to the wearing of the white metal type. He presented the estimate of the Todd Protectograph Company to provide the machine with brass type and otherwise condition the machine at a total cost of \$31.50. Director Hogsett made a motion, seconded by Director Bewley, that the machine be reconditioned as proposed and that the stated cost of the repairs be authorized without other or further order. Upon a vote being taken, the motion was carried and it was so ordered.

14.

There was presented to the Directors the fact that at a prior time Mr.

Ireland Hampton purchased from the Fort Worth Wrecking Company certain materials shown as the first five items in the voucher attached to the District's paid check

No. 5145, in the amount of \$18.11. This payment was for sheet iron and certain timbers which were to have been included in a house which the District was under contract to provide for a Mr. Smith, who held the right of possession to part of the ground now occupied by Section "B" of the levee. Due to the fact that it later was found cheaper to purchase a complete house and move it on to the lot provided for Mr. Smith, the materials had not been used and they were sold by Ireland Hampton to the Texas Electric Service Company for \$18.11, which was the original cost thereof.

15.

There was consideration of the desire of Mr. Lloyd Baker to have consummation of his proposal for a lease as given in the application presented by Mr. Geo. W. Duke on November 14th, which application recited that the purpose of the lease was for engaging in "agriculture" and "pasturage." There was also a supplemental application by Mr. Baker, dated February 15, 1937, wherewith he presented \$30.00 in eash, and Whereby he proposed to lease from the District for "agriculture" and "pasturing" 16.72 acres of land embraced in three fragments of the land purchased by the District from John McKee, J. N. and J. J. McKee and J. J. McKee, respectively. The application stated that there was to be no "concession" privilege on this land and the lease was desired to keep out trespassers. This application also was affected by an oral request of Mr. Baker that the District move the division fence between the land of the District and the land formerly owned by T. L. Cox, now owned by Barker Bros. It was the sense of the Directors that the District enter into formal lease with Mr. Lloyd Baker, to expire December 31, 1937, the 69.60 acres of land, situated above elevation 649, embraced in the District's Tracts Nos. 291, 292 and 293 for a total consideration of \$195.00. it being understood that the lease would authorize Mr. Baker to exercise on said land the concession privileges approved by the District; that the District also lease to Mr. Baker for the same period of time the 10.72 acres of land hereinabove designated for the consideration of \$47.00; provided however, that this

District have no obligation whatever to set back, or procure permission for setting back, on the land of Barker Brothers, the division fence between the lands of the District and the land of Barker Bros., it being understood that Mr. Baker, if he so desires, shall have the responsibility therefor.

16.

Director Hickman presented the application of W. H. Lasater to lease from the District Tract No. 295, purchased from R. A. Hudson, for the term to expire December 31, 1937, for the consideration of \$22.50. This proposal was accompanied by the check of G. W. Duke on the Union Bank and Trust Company for the sum of \$22.50. There was consideration of this proposal and the fact that the particular 34.76 acres of land was very inaccessible and therefor unattractive to tenants; whereupon Director Bewley made a motion, seconded by Director Hogsett, that the lease as proposed be consummated, subject only to the execution of the written lease in the form required by the District and the payment of the check accompanying said proposal. Upon a vote being taken, the motion was carried and it was so ordered.

17.

No further business was presented and the meeting was adjourned.

Dipling.

Levee Improvement PWA Docket No. 5984

Board of Directors, Tarrant County Water Control and Improvement District Number One, Fort Worth, Texas.

Gentlemen:

We hand you herewith periodical estimate for partial payment No. 5, in the amount of \$5,061.09, covering work performed during the month of February 1937 by Cage Bros. and J. C. Ruby on Levee Improvement project B, PWA Docket No. 5984.

Yours very truly,

Maruni C. Nichols

Approved:

John B. Hawly
