

Ft. Worth, Texas

JUNE 1<sup>st</sup> 1926.

At a meeting of the Board of Directors of TARRANT COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1, held in the City of Fort Worth, Texas, on the 1<sup>st</sup> day of June, A. D., 1926, at which were present:

W. E. Bideker,  
H. M. Hightower,  
L. C. Abbott,  
A. L. Baker,

constituting the entire membership of the Board as at present constituted, at which meeting A. L. Baker, the President of the Board, presided and W. E. Bideker, the Secretary thereof, was in attendance, among other things the following proceedings were had and done:

The President stated to the Board that the engineering data had been assembled and that investigation had been made with respect to lands irrigable and non-irrigable, <sup>and</sup> those protected from flood and those not protected from flood, lying outside the corporate limits of the City of Fort Worth but within the District as now defined, and that the consideration for the present meeting was as to whether lands deemed non-irrigable and those not protected from flood by the proposed works, lying outside the corporate limits of the City of Fort Worth, but otherwise within the District, should still be held within the District or be excluded therefrom:

THENCEUPON, discussion ensued and consideration was then had of the protest which had been lodged with the Board of Directors by property owners of land outside the City Limits of Fort Worth, and within the District; Consideration was also had of the report of the engineers showing the elevation and topography of lands within the District lying outside the City of Fort Worth,

It then became the consensus of opinion that those lands deemed non-irrigable or not to be protected from flood lying outside of the City of Fort Worth, but within the limits of the District as now defined, should be ex-

cluded from the District because of the prohibitive cost that would be involved, both with respect to irrigation and with respect to flood control and water supply as well.

Following this unanimous expression of opinion, a motion was made by Director H. M. Hightower, seconded by Director W. E. Bidaker, that the following resolution be adopted, to-wit:

"Whereas, the preliminary surveys of the District constituting Tarrant County Water Control and Improvement District No. 1, have been made and completed; and,

Whereas, the data of the engineers have been assembled by which it can now be determined what lands may be included within the District so that the purposes of the District may be accomplished without prohibitive cost; and

Whereas, it now appears from the elevation and topography of much of the lands within the District outside the limits of the City of Fort Worth, that to extend to same the scope of any of the purposes and objects for which the District was organized would be prohibitive in cost and lay too great a burden upon all the property within the District.

And, Whereas, the Board has received and considered the protest of many of the property owners within the District against the inclusion of their property within such District and the said Board has reached a conclusion thereon;

And, Whereas, the Board has now determined on those lands lying outside the corporate limits of the City of Fort Worth, but otherwise within the District, which should be excluded from the District, because of their being non-irrigable or because of their not being protected from flood, and further because of the prohibitive cost to the District which would be involved in seeking to extend to such lands the purposes and objects for which the District was organized by law;

-3-

THEREFORE BE IT RESOLVED BY THE BOARD OF DIRECTORS OF TARRANT COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1 BY THE AUTHORITY VESTED IN THE BOARD:

That the following described lands lying outside the corporate limits of the City of Fort Worth, but situated within the said District, be and they are hereby excluded therefrom, to-wit:

Beginning at the Northeast corner of Tarrant County, thence South along the East line of Tarrant County to the North line of the George Burgoon Survey; thence West along the South line of the H. Atkinson, Chas. Baker and J. A. Burgoon Surveys to the Southwest corner of the J. A. Burgoon Survey; thence Northwesterly in a straight line to the Northwest corner of the R. Worthington Survey, thence West along the South line of the E. C. Clary Survey to the Northeast corner of the J. H. Hughes Survey; thence South along the East line of the J. H. Hughes, J. R. Doss, J. E. Field, L. Franklin, G. Linney, J. H. Cummings, J. P. Halford and A. J. Huitt Surveys to the Northeast corner of the E. Rogers Survey; thence West along the North line of the E. Rogers and A. M. Downing Surveys to the Northwest corner of said Downing Survey; thence South along the West boundary of said Downing Survey to the Southwest corner of said Downing Survey; thence West along the South line of the J. Matson Survey to the Southwest corner of said Matson Survey; thence North along the West line of said Matson Survey to the South line of the W. O. Yantis Survey, thence West along the South line of the W. O. Yantis and W. T. Darby Surveys to the Southwest corner of the W. T. Darby Survey; thence Northwesterly in a straight line to the Southeast corner of the D. C. Manning Survey, thence West along the South line of the D. C. Manning and L. C. Walker Surveys, and along said South line produced to the Southeast line of the Grapevine-Cardinal Road; thence Southwesterly along the Southeast line of the Grapevine-Cardinal Road to the North line of the A. G. Walker Survey, thence West along the North

-4-

line of the A. G. Walker and M. Lynch Surveys to the Southeast Corner of the R. P. Barton Survey; thence North along the East line of the R. P. Barton Survey to the North line of the W. A. Tremble and Heirs of S. Sawyer Surveys produced; thence West along the said North line to the Northwest corner of the heirs of S. Sawyer Survey, thence South along the West line of said Sawyer Survey to the Northwest corner of the H. F. Largent Survey; thence Southwesterly in a straight line to the Northwest corner of the J. W. Elliston Survey, thence South along the West line of the J. W. Elliston Survey to the Northeast corner of the J. B. York Survey; thence West along the North line of the J. B. York, G. B. Daggett and S. K. Smith Surveys to the West line of Sterling Street, or Denton Avenue, which is a limit of the City of Fort Worth; thence along said limits of the City of Fort Worth as follows:

North along said west line to a point 787 feet north of the South line of the J. Bursley Survey; thence west to the East line of the road along the east line of Postepco Heights; thence South along said East line to a point East of the Northeast corner of Block 24 of Postepco Heights; thence West along the North lines of Blocks 24 to 34 said Postepco Heights to the West line of Main Street; thence North along said West line to the South line of Thirty-seventh Street; thence West along said South line to the East line of Refugio Avenue; thence South along the said East line Refugio Avenue to the point of intersection with the South line of Thirty-fifth Street; thence West along the South line of Thirty-fifth Street to the point of intersection with the east line of the road known as the Azle Road; thence in a general Southerly direction along the East line of said Azle Road to the point of intersection with the South line of Thirty-third Street produced; thence West along the South line of Thirty-third Street produced to the intersection with the Southwest line of Thirty-second Street; thence Northwest along the Southwest line of Thirty-second Street to the point of intersection with the

East line of Taylor Avenue; thence along the East line of said Taylor Avenue to the point of intersection with the North line of Twenty-first Street produced; thence in a Southeasterly direction along said North line of Twenty-first Street produced and Twenty-first Street to the West line of the P. Moore Survey; thence, leaving the limits of the City of Fort Worth, Southwesterly in a straight line to the Northeast corner of the J. P. Lusk Survey; thence West along the North line of said Lusk Survey to the Northwest corner of said Lusk Survey, thence South along the West line of said Lusk Survey to the Northeast corner of the N. H. Carroll Survey; thence West along the North line of said Carroll Survey to the center line of the West Fork of the Trinity River; thence Northerly with the meanders thereof to the West line of the J. D. Quinn Survey; thence North along the West line of the J. D. Quinn Survey to the Northwest corner of said Quinn Survey, which point is in the limits of the City of Fort Worth; thence *with* the limits of the City of Fort Worth, as follows:

North 89 degrees, 59 minutes east 2,163.6 feet; thence North 0 degrees, 1 minute west 1,273 feet; thence North 75 degrees, 29 minutes west 2,011.5 feet; thence North 0 degrees, 6 minutes East 763.4 feet; thence South 89 degrees, 32 minutes West 1,651.3 feet; thence South 0 degrees, 11 minutes East 417.8 feet to the Southeast corner of the J. M. Basques Survey; thence South 89 degrees, 58 minutes West 2,909 feet; thence South 45 degrees, 5 minutes West 799 feet; thence South 0 degrees, 18 minutes West 634 feet; thence North 89 degrees, 42 minutes west 1,904.4 feet; thence North 0 degrees, 18 minutes East 200 feet; thence north 89 degrees, 42 minutes West 803.2 feet; thence North 44 degrees, 42 minutes West 848.5 feet; thence North 0 degrees, 18 minutes West 397 feet to the Northeast corner of the H. B. Smallwood Survey; thence North 89 degrees, 34 minutes West 3,765.3 feet; thence North 0 degrees, 45 minutes

East 2,361.3 feet; thence North 45 degrees, 35 minutes East 1,701.4 feet; thence South 44 degrees, 44 minutes East 462.7 feet; thence South 88 degrees, 48 minutes East 440.4 feet; thence North 1 degree, 11 minutes East 509.6 feet to a point in the South line of the M. Townsend Survey; thence North 88 degrees, 48 minutes West 200 feet to the Southeast corner of the tract acquired from Wm. Charbonneau; thence North ~~88~~ 30 degrees, 40 minutes West 284 feet; thence North 53 degrees, 51 minutes West 147.4 feet; thence north 73 degrees, 56 minutes West 136.7 feet; thence North 70 degrees, 9 minutes West 168.5 feet; thence North 78 degrees, 11 minutes West 138.5 feet; thence North 55 degrees, 53 minutes West 142.5 feet; thence North 24 degrees, 56 minutes West 1,075.6 feet; thence North 4 degrees, 30 minutes West 477 feet to a corner in the old nine-mile bridge road, which point is several hundred feet Southeast from the location of the old nine-mile bridge; thence Northeasterly to the most Westerly Southeast corner of the tract acquired from J. Hodgkins in the South line of the J. Breeding Survey; thence North 6 degrees, 3 minutes East 338 feet; thence North 47 degrees, 10 minutes West 352 feet; thence North 4 degrees, 8 minutes East 212.4 feet; thence North 58 degrees, 48 minutes East 286.6 feet; thence South 20 degrees, 14 minutes East 192.9 feet; thence South 40 degrees, 32 minutes East 202.7 feet; thence South 86 degrees, 21 minutes East 350.3 feet; thence South 61 degrees, 51 minutes East 335.8 feet; thence South 18 degrees, 18 minutes East 329.1 feet; thence South 52 degrees, 44 minutes East 97.1 feet to a point in the South line of the J. Breeding Survey; thence <sup>North</sup> ~~South~~ 89 degrees, 21 minutes East with said line 450.7 feet to a point; thence North 14 degrees, 36 minutes West 482; thence South 44 degrees, 19 minutes West 241.6 feet; thence North 23 degrees, 58 minutes West 335.5 feet; thence North 34 degrees, 36 minutes West 208 feet; thence North 80 degrees, 19 minutes East 229.2 feet; thence North 9 degrees, 8 minutes East 73.4 feet; thence North 46 degrees, 58 minutes West 129.6 feet; thence North 53 degrees,

1 minute West 136.4 feet; thence North 30 degrees, 50 minutes West 167.2 feet; thence North 41 degrees, 40 minutes East 252.5 feet; thence North 84 degrees, 2 minutes West 320.5 feet; thence North 6 degrees, 37 minutes East 162.8 feet; thence North 58 degrees, 50 minutes East 395.2 feet; thence North 19 degrees, 42 minutes East 502.8 feet to a point in the Northline of the J. Breeding Survey, which point is the most Northerly Northeast corner of the J. Hodgkins tract; thence North 89 degrees, 10 minutes East 29.7 feet to a point in the South line of the H. B. Breeding Survey, and is the Southeast Corner of the tract acquired of G. R. Williams; thence North 20 degrees, 3 minutes East 537.4 feet; thence North 4 degrees, 13 minutes East 1,449 feet; thence North 38 degrees, 6 minutes West 465 feet to a point in the South line of the S. T. Townsend Survey, which point is the Northeast corner of the G. R. Williams tract and the Southeast corner of a tract acquired from J. M. McNay, thence North 27 degrees, 5 minutes East 496 feet; thence North 75 degrees, 30 minutes East 352.8 feet; thence North 5 degrees, 50 minutes West 315.2 feet; thence North 74 degrees, 30 minutes West 548.2 feet; thence South 4 degrees, 15 minutes West 258.6 feet; thence North 89 degrees, 50 minutes West 435.7 feet to an eight-inch live oak; thence North 55 degrees, 45 minutes West 621.9 feet to a fifteen-inch post oak; thence North 85 degrees, 15 minutes West 407.6 feet; thence North 20 degrees, 0 minutes West 470.8 feet; thence North 21 degrees, 45 minutes West 524.3 feet; thence South 87 degrees, 50 minutes East 277.4 feet; thence North 1 degree, 50 minutes West 381.4 feet to a point in the South line of the H. Dikeman Survey; thence North 89 degrees, 50 minutes West along said line 349 feet; thence North 0 degrees, 30 minutes West 651 feet to a point which is the South corner of a tract acquired from Wm. Fund; thence North 40 degrees, 30 minutes East 919.3 feet; thence North 0 degrees, 40 minutes West 636. feet; thence North 64 degrees, 30 minutes West 371.2 feet to an ash tree; thence South 21 degrees, 15 minutes West 650 feet; thence

South 38 degrees, 15 minutes West 1,130.6 feet; thence South 40 degrees, 0 minutes West 914.2 feet to a fifteen-inch live oak tree; thence South 78 degrees, 45 minutes West 879.3 feet to a fifteen-inch post oak; thence South 78 degrees, 30 minutes West 349 feet to a twenty-four inch post oak tree; thence, North 31 degrees, 35 minutes West 396 feet to a point in the West line of the H. Dikeman Survey, which point is 217 feet north of the Southwest corner of said Survey; thence North 1 degree, 30 minutes West along said line 961.5 feet to a point; thence South 65 degrees, 36 minutes West 161.1 feet; thence North 88 degrees, 58 minutes West 191.6 feet; thence North 11 degrees, 18 minutes West 753.3 feet; thence North 16 degrees, 58 minutes West 1,103 feet to a point in South line of the C. A. Kuykendall Survey; thence North 88 degrees 42 minutes East 150 feet, to the Southeast corner of a lease to the City of Fort Worth; thence North 8 degrees, 45 minutes East 2,238.8 feet; thence North 29 degrees, 20 minutes West 197.2 feet; thence North 64 degrees, 30 minutes West 161 feet; thence North 37 degrees, 0 minutes West 1,358.9 feet; thence North 43 degrees, 45 minutes West 1,222.2 feet; thence South 16 degrees, 15 minutes West 225 feet; thence South 25 degrees, 30 minutes West 1,072.2 feet; thence North 51 degrees, 45 minutes West 980 feet; thence North 20 degrees, 40 minutes West to the South line of the Sam Ross Tract, which is the Northeast corner of the lease; thence South 89 degrees, 17 minutes East along said South line to the West line of the Fort Worth and Azle Road; thence North 12 degrees, 50 minutes West 697 feet; thence North 10 degrees, 35 minutes West 528.6 feet; thence North 42 degrees, 41 minutes West 628.4 feet to the South end of the Ten-Mile Bridge; thence, leaving the limits of the City of Fort Worth, Northeasterly in a straight line to the Southwest corner of the B. Whitley Survey; thence North along the West line of said Whitley Survey to the Northwest corner of said Whitley Survey; thence West along the North line of the D. C. Pace Survey *which is the Southwest corner of the Heirs of Benj. Thomas Survey* to the Southeast corner of the Geo. S. Hall Survey; thence North along the East

-9-

line of the Geo. S. Hall and J. H. Simmons Surveys to the South line of the J. N. Reed Survey; thence East along the South line of the J. N. Reed Survey to the Southeast corner of the said Reed Survey; thence North along the East line of said Reed Survey to the Northeast corner of said Reed Survey; thence *Westerly* in a straight line to the Northeast corner of the J. P. Smith Survey; thence *Northerly* in a straight line to the Southwest corner of the J. M. Crofford Survey; thence North along the West line of the J. M. Crofford, M. Townsend and J. S. Lee Surveys to the Northwest corner of the J. S. Lee Survey; thence East along the North line of the J. S. Lee Survey to the Northeast corner of said Survey; thence *Easterly* to the Southwest corner of the G. G. Young Survey; thence East along the South line of the G. G. Young and Volney Hall Surveys to the Southeast corner of the Volney Hall Survey; thence North along the East line of the Volney Hall and T & P R R Company Surveys and along said line produced to the Southwest property line of the Chicago, Rock Island & Gulf Ry; thence *Northwesterly* along said Southwest property line to the North line of Tarrant County; thence East along the North line of Tarrant County to the point of beginning, also the following:

Beginning at the Southwest corner of Tarrant County; thence North along the West line of Tarrant County to the North line of the R. A. Paschal Survey; thence East along the North line of said Paschal Survey to the Northeast corner of said Paschal Survey; thence South along the East line of said Paschal Survey to the Northwest corner of the J. Armandaris Survey; thence East along the North line of the said Armandaris Survey to the Northeast corner of said Armandaris Survey; thence *Southeasterly* in a straight line to a point South 88 degrees, 52 minutes West 2,588.9 feet from the Northeast corner of the J. Wilcox Survey Number 42, *which point is in the limits of the City of Ft. Worth*; thence *South* 0 degrees, 26 minutes West 2,588.7 *along the limits of the City of Ft. Worth, as follows:*

feet; thence South 89 degrees, 38 minutes East 450.4 feet; thence South 26 degrees, 43 minutes East 2,958.9 feet to a point in the South line of the J. Wilcox Survey No. 42; thence North 89 degrees East along said line 884.5 feet to the West line of the Mary Todd tract; thence South 0 degrees, 5 minutes West 2,801.5 feet to the South west corner of the J. Wilcox Survey No. 46; thence South 0 degrees, 14 minutes East 1,391.7 feet to a point in West line of J. Wilcox Survey No. 36 and the north line of a road; thence South 89 degrees, 46 minutes East 2,544.7 feet; thence South 0 degrees, 14 minutes West 40 feet; thence South 89 degrees, 46 minutes East 1,874.5 feet; thence South 1,311.2 feet to a point in the North line of Jacob Wilcox Survey No. 35; thence South 6 degrees, 43 minutes East 1,094.6 feet; thence South 8 degrees, 23 minutes East 441.2 feet; thence South 11 degrees, 9 minutes East 410.8 feet; thence South 12 degrees. 57 minutes East 765.1 feet to the Northwest corner of the J. Wilcox Survey No. 34; thence South along West line of the J. Wilcox Survey No. 34 to the Northwest corner of school lot; thence East, South and West along the lines thereof to the West line of said Survey; thence South to the Southwest corner of said Wilcox Survey No. 34; thence South 89 degrees, 16 minutes East 2,959 feet to a point in the South line of said Wilcox Survey No. 34; thence South 14 degrees, 52 minutes East 122.2 feet; thence North 48 degrees, 29 minutes East 160 feet; thence South 86 degrees, 56 minutes East 163.5 feet; thence North 66 degrees, 51 minutes East 72.2 feet; thence South 35 degrees, 17 minutes East 165.3 feet; thence North 77 degrees, 40 minutes East 67 feet; thence South 56 degrees, 46 minutes East 168 feet; thence South 70 degrees, 39 minutes East 193.3 feet; thence South 15 degrees. 39 minutes East 171.8 feet; thence South 10 degrees, 49 minutes West 334.1 feet; thence South 43 degrees, 31 minutes East 249.7 feet; thence North 18 degrees, 34 minutes East 216.2 feet; thence North 8 degrees, 23 minutes East, 327.6 feet; thence south 88 degrees, 18 minutes East 353.5 feet; thence North 14 degrees, 34 minutes East 213 feet; thence North 11 degrees, 54

minutes West 273.7 feet; thence North 28 degrees, 36 minutes East 144 feet to a point in the North line of the Wilcox Survey No. 33; thence South 88 degrees, 33 minutes East 1,709.9 feet along the said line to the Northwest corner of a 101.8-acre tract acquired from C. H. Haley; thence South 0 degrees, 24 minutes West 1,319.4 feet to the Southwest corner of said tract; thence North 88 degrees, 9 minutes West 388.4 feet to the Northwest corner of the Ella Young tract; thence South 24 degrees, 34 minutes West 778.6 feet; thence north 75 degrees, 12 minutes West 225.3 feet; thence South 78 degrees, 16 minutes West 336.5 feet; thence South 58 degrees, 17 minutes West 234.8 feet; Thence South 1 degree, 17 minutes West 270.8 feet; thence South 56 degrees, 58 minutes West 133.4 feet, thence South 65 degrees, 46 minutes West 261.8 feet; thence North 73 degrees, 14 minutes West 751 feet; thence North 77 degrees, 29 minutes West 339.1 feet; thence North 55 degrees, 45 minutes West 477.8 feet; thence North 21 degrees, 54 minutes West 81.5 feet; thence South 70 degrees, 51 minutes West 128 feet; thence North 55 degrees, 45 minutes West 232 feet; thence South 88 degrees, 30 minutes West 383.1 feet; thence North 72 degrees, 23 minutes West 471.8 feet; thence South 55 degrees, 6 minutes West 363.8 feet; thence South 3 degrees, 31 minutes West 681.3 feet; thence South 71 degrees, 39 minutes West, 347.2 feet; thence North 30 degrees, 13 minutes West 389.4 feet; thence South 59 degrees, 40 minutes West 336.4 feet; thence North 75 degrees, 3 minutes West 280.8 feet; thence North 43 degrees, 36 minutes West 583.4 feet; thence South 87 degrees, 39 minutes West 676.6 feet; thence South 45 degrees, 57 minutes West 656.8 feet; thence South 86 degrees, 18 minutes West 525.7 feet; thence North 70 degrees, 12 minutes West 556.7 feet; thence South 82 degrees, 49 minutes West 279 feet; thence South 75 degrees, 32 minutes West 769.9 feet to the Southwest corner of the J. Wilcox Survey No. 33; thence South 89 degrees 59 minutes West 693 feet to the Northwest corner of the A. M. Clear Survey;

-12-

thence North 0 degrees, 1 minute West 159 feet to the Northeast corner of the M. DeLaGarza Survey; thence South 89 degrees, 59 minutes West 3,465.3 feet along the North line of said Survey to the Northwest corner thereof; thence South 0 degrees, 28 minutes West 4,981.2 feet to the South<sup>EAST</sup> corner of the Wilcox Survey No. 3~~X~~; thence North 89 degrees, 59 minutes West 425 feet; thence South 0 degrees, 38 minutes East 2,627.6 feet to the South line of the North one-half Wilcox Survey No. 2; thence North 88 degrees, 32 minutes along the said line to the Southwest corner of the school lot; thence North, East and South to the said line; thence South 1 degree, 17 minutes West 791.1 feet; thence South 73 degrees, 17 minutes East 313.6 feet; thence South 25 degrees, 15 minutes East 138.8 feet; thence South 36 degrees, 19 minutes East 444.4 feet; thence South 27 degrees, 14 minutes East 702.7 feet; thence South 20 degrees, 58 minutes East, 738.8 feet; thence South 79 degrees, 30 minutes East 168 feet; thence South 74 degrees, 2 minutes East 144.4 feet; thence South 60 degrees, 2 minutes East 319.4 feet; thence South 64 degrees, 21 minutes East 454.2 feet to a point in the West line of the J. Armendaris Survey; thence South 0 degrees, 23 minutes East 1,234.7 feet to the Southwest corner thereof; thence South 89 degrees, 19 minutes East 2,754.7 feet along the North line of the A. B. Conner Survey; thence South 0 degrees, 41 minutes West 292 feet; thence South 89 degrees, 19 minutes East 1,774.4 feet to a point in the East line of the said Conner Survey; thence North 0 degrees, 14 minutes East 1,963 feet to a point in the South line of the Wilcox Survey No. 1; thence South 89 degrees, 19 minutes East 1,528 feet along the South line of said Survey to the Southeast corner of said Wilcox Survey No. 1; thence North 0 degrees, 41 minutes East 1,020 feet to the Southwest corner of the R. Langster Survey; thence South 88 degrees, 12 minutes East 1,211 feet to the Northeast corner of the J. O. Farmer Survey; thence South 0 degrees, 22 minutes West 3,816 feet to the South-

-13-

east corner of the G. W. Hazelwood Survey; thence North 89 degrees, 32 minutes West 1,111 feet; thence South 0 degrees, 28 minutes West 292.2 feet; thence South 42 degrees, 28 minutes West 316 feet; thence South 44 degrees, 32 minutes East 300 feet; thence South 0 degrees, 28 minutes West 160 feet; thence South 89 degrees, 32 minutes East 1,649 feet; thence South 0 degrees, 28 minutes West 588 feet; thence South 89 degrees, 22 minutes East 2,848.4 feet to a point in the East line of the D. E. Norton Survey; thence North 0 degrees, 43 minutes East 1,691.6 feet; thence South 89 degrees, 43 minutes East 1,980.5 feet to a point in the West line of the E. S. Terrell Survey; thence North 0 degrees, 13 minutes East 940 feet along said line to the Northwest corner of the E. S. Terrell Survey; thence South 89 degrees, 38 minutes East 327.7 feet; thence South 44 degrees, 38 minutes East 212 feet; thence South 89 degrees, 38 minutes East 150 feet; thence North 45 degrees, 22 minutes East 212 feet to a point in the North line of the E. S. Terrell Survey; thence South 89 degrees, 38 minutes East 1,448.3 feet along said line to the Northeast corner of said Survey; thence North 0 degrees, 51 minutes East 833.5 feet; thence North 20 degrees, 36 minutes East 436 feet; thence North 87 degrees, 41 minutes East 92 feet; thence South 65 degrees, 29 minutes East 137 feet; thence South 53 degrees, 24 minutes East 416 feet; thence South 24 degrees, 11 minutes East 561 feet; thence South 59 degrees, 50 minutes East 247.9 feet; thence North 82 degrees, 45 minutes East 1,387 feet to a point in the East line of the *Vean McDaniel* Survey; thence North 62 degrees, 32 minutes East 1,386 feet to a point in the South line of the J. R. Rowland Survey; thence South 89 degrees, 22 minutes East along the said South line to the Northwest corner of the J. S. Hansborough Survey; thence <sup>leaving the limits of the City of Ft. Worth,</sup> Southwesterly in a straight line to the Northwest corner of the B. L. Samuel Survey; thence South along the West line of said Samuel Survey to the Southwest corner of ~~the~~ ~~Southwest~~ ~~corner~~ of said Samuel Survey; thence South-

*in a straight line*  
 easterly to the Southeast corner of the E. Bissett Survey; thence Southerly to the Northeast corner of Block 30 of Arlington Heights, which is in the limits of the City of Fort Worth; thence along the limits of the City of Fort Worth as follows:

West along the North lines of Blocks 30 and 29 to the Northwest corner of 29 as originally platted, in the east line of Seventeenth Street; thence South along the East line of Seventeenth Street to the Southwest corner of Block 126 of second filing of Arlington Heights; thence East along the South line of the intervening Blocks to the Southeast corner of Block 134, said South line being one block South of Helmick Avenue; thence North along the East lines of the intervening blocks to the South line of Block 30, said East line being one block East of Pentacost Street; thence east along the South lines of the intervening blocks to the South east corner of Block 34, said South line being a North line of Bonnell Avenue produced; thence South to the Northwest line of Valentine Street; thence Northeast along the said North line to the Southwest line of Hopkins Street; thence Southeast along said line to the Northwest line of Granbury Road; thence Northeast along the said line to the South line of the W. D. Conner Survey; thence East along the South lines of the said Conner and of the T. White Surveys, to the North line of right-of-way of the Texas & Pacific Railway; thence Northeastwardly along said North line to the Granbury Road; thence North to the North line of said road; thence northeastwardly along said North line to the West bank of the Clear Fork of Trinity River; thence up the said West bank in a Southerly direction to the center line of the T & P Railway; thence running in a Southerly direction along the said West bank of the Clear Fork to a point where the same intersects the West line of the E. S. Harris Survey, thence South along the said West line of the E. S. Harris Survey, to the Southwest corner thereof; thence South 64 West 442 feet to the Northeast corner of the A. B.

Conner Survey; thence West along the North line of the Conner Survey 1122 feet; thence South 1408 feet; thence West to an intersection with the East line of Boyd Avenue produced; thence South along the East line of Boyd Avenue produced and Boyd Avenue to an intersection with the North line of the tract upon which is situated the Municipal Golf Course; thence West to the Northwest corner of said Golf Course tract; thence South to the Southwest corner of the said tract; thence East to the Southeast corner thereof; thence North along the East line thereof to a point 40 feet West of the Northwest corner of the E. Sutherland Survey; thence East to the East line of the Cleburne Pike; thence Southwesterly and South along the said East line of Cleburne Pike to a point due East of the Northeast corner of the T. McCanne Survey; thence West to the Northeast corner of the T. McCanne Survey; thence West along the North line of the T. McCanne Survey 262 feet to a point, thence South 600 feet to a point; thence East to the point of intersection with the East line of the Cleburne Pike; thence South along the East line of the Cleburne Pike to a point East of the Northeast corner of Horne Heights; thence West to the Northwest corner of Cole Highlands; thence South to the Southwest corner of Cole Highlands; thence East to the East line of Wellview Avenue; thence South along the said East line of Wellview Avenue to the North line of Spurgeon Street produced; thence East along said North line of Spurgeon Street to the West right-of-way line of the Santa Fe Railroad; thence South along said West right-of-way line to the South line of the Seminary Hill Addition; thence East along the South line of the said Seminary Hill Addition to the West line of Reeves Avenue; thence North along the West line of said Reeves Avenue to the North line of Felix Street; thence East along the North line of Felix Street to the East line of Hemphill Street; thence North along the East line of Hemphill Street to the North line of Calvin Street; thence East along the North line of Calvin Street to the East right-of-way line of the M. K. & T. Railroad, running between Fort Worth and Hillsboro; thence in a Northerly

direction along the said East line of the M. K. & T right-of-way to an intersection with the North line of Pafford Street, East of the M. K. & T. Railroad; thence East along the North line of said Street to an intersection with the West line of South Pecan Street; thence North along the said West line of South Pecan Street to an intersection with the North line of the E. S. Ellis Survey produced; thence east to and along said North line of the Ellis Survey to the West line of the right-of-way of the main line of the I & G N. Railway, thence in a Northerly direction with the West line of said main line right-of-way to its intersection with the West line of the spur track connecting the I & G N main line with the M. K. & T Railway line; thence in a Northwesterly direction following the West line of the right-of-way of said I & G N spur track to its intersection with the West line of South Pecan Street; thence North along said West line to the Northwest corner of the George Hertsog Survey and the Southwest corner of the A. Stinson Survey; thence East along the North boundary line of the said Hertsog Survey to a point in the boundary line due South of an extension of the West boundary line of the B. P. Waller and the J. Sanderson Survey; thence Northerly along the said line to the Northwest corner of the S. P. Loving Survey; thence Easterly along the North boundary line of the S. P. Loving and the South Boundary line of the E. S. Terrell Survey to the Westerly boundary line of the tract conveyed by the O. K. Cattle Company to the City of Fort Worth, and known as Cobb Park; thence Southerly, Easterly and Northerly along the lines of said tract to an intersection with the south line of the said E. S. Terrell Survey; thence East along said line to the West line of the J. Justice Survey; thence North to the Northwest Corner of the J. Justice Survey; thence East along the North line of the J. Justice Survey to the East line thereof which is the West line of the R. R. Ramey Survey; thence North along said West line to the Middle line of the said Ramey Survey; thence East along said line in Tarrant Avenue to the

East line of the said Ramey Survey; thence North along the East lines of the said Ramey and of the J. Tuel Survey to the South line of the P. Anderson Survey; thence East to the Southeast corner of the said Anderson Survey; thence North along the East line of the Anderson Survey to the South line of the right-of-way of the Texas & Pacific Railway; thence Eastwardly along said right-of-way line to the West line of the road called Tierney Road, which runs along the East line of the P. H. Ahler Survey; thence North along the West line of the said road to the North line of the Ederville road; thence West along said North line about 100 feet to the West line of the Tierney Road; thence North along said West line about 867 feet to the Northeast corner of the Ed N. Shaw 12 acre tract; thence West along the North line of said tract and of the J. J. Sweet tract about 1108 feet to the East line of an unnamed Street along the East side of Edgewood Heights; thence North along the East line of said Street to a point East of the Northeast corner of Edgewood Heights; thence West along the North line of Edgewood Heights to the Northwest corner thereof in the East line of the Wm. Edwards Survey; thence North to the Northeast corner thereof; thence West along the North line of said Edwards Survey to the Southwest corner <sup>thence leaving the limits of the City of Fort Worth</sup> of the W. L. Tandy Survey; thence <sup>North</sup> along the West line of the W. L. Tandy Survey to the Northwest corner of said Tandy Survey; thence <sup>of the West line of</sup> Northeastly in a straight line to the South <sup>end</sup> ~~corner~~ of the J. Brockman Survey; thence East along a line <sup>between the</sup> said Brockman and the J. M. Haynes Survey and along said line produced to the West line ~~Survey to the Southeast corner of said Brockman Survey; thence Northeastly~~ <sup>of the H. Robinson Survey; thence Northeastly</sup> in a straight line to the Northwest corner of the G. W. Main Survey; thence East along the North line of the said Main Survey to the Northeast corner of said Main Survey; thence Northeastly in a straight line to the Northeast corner of the W. Masters Survey; thence Southeastly in a straight line to the Southwest corner of the J. R. Newton Survey; thence East along the South line of the J. R. Newton and A. Hampton Surveys to the Southeast corner

-18-

of the A. Hampton Survey; thence Southeast<sup>erly</sup> in a straight line to the Southwest corner of the W. G. Elkins Survey; thence East along the South line of said Elkins Survey to the Southeast corner of said Elkins Survey; thence Northeasterly in a straight line to the North point of the T. J. Dalton Survey; thence Southeasterly in a straight line to the Southwest corner of the P. G. Dalton Survey thence East along the South line of said P. G. Dalton Survey to the Northwest corner of the T. Dalton Survey; thence South along the West line of said T. Dalton Survey to the Southwest corner of said T. Dalton Survey; thence East along the South line of said T. Dalton Survey to the Southeast corner of said T. Dalton Survey; thence Northeasterly in a straight line to the Northeast corner of the M. Coleman Survey; thence East along the North line of the J. W. Haynes Survey to the Northeast corner of said Haynes Survey; thence North along the line between the two J. Brown Surveys to the Southwest corner of the N. Underwood Survey; thence East along the South line of said Underwood Survey to the Southeast corner of said Underwood Survey; thence Southeasterly in a straight line to the intersections of the South line of the H. P. Croker Survey with the East line of Tarrant County; thence South along the East line of Tarrant County to the Southeast corner of Tarrant County, thence West along the South line of Tarrant County to the point of beginning.

All of the foregoing, with the exception of lands within the corporate boundaries of the towns of Grapevine and Mansfield which were not voted into the District at the election creating said District.

And that said lands hereinbefore particularly set out by metes and bounds, be no longer considered a part of said District, but that said District as now constituted be and the same is now here defined and bounded as follows:

he and the same are hereby excluded from the District No. 1, and the same Tarrant County Water Control & Improvement.

Beginning at the Northwest corner of Tarrant County, thence South along the West line of Tarrant County to the North line of the R. A. Paschal Survey; thence East along the North line of said Paschal Survey to the North east corner of said Paschal Survey; thence South along the East line of said Paschal Survey to the Northwest corner of the J. Armendaris Survey; thence East along the North line of the said Armendaris Survey to the Northeast corner of said Armendaris Survey; thence Southeasterly in a straight line to a point South 88 degrees, 52 minutes West 2,598.9 feet from the Northeast corner of the J. Wilcox Survey Number 42; thence South 0 degrees, 26 minutes West 2,588.7 feet; thence South 89 degrees, 38 minutes East 450.4 feet; thence South 26 degrees, 42 minutes East 2,958.9 feet to a point in the South line of the J. Wilcox Survey No. 42; *which point is in the limits of the City of Fort Worth* thence North 89 degrees East along said line 884.3 feet *along the limits of Fort Worth as follows;* to the West line of the Mary Todd tract; thence South 0 degrees, 5 minutes West 2,801.5 feet to the Southwest corner of the J. Wilcox Survey No. 46; thence South 0 degrees, 14 minutes East 1,391.7 feet to a point in West line of J. Wilcox Survey No. 36 and the North line of a road; thence South 89 degrees, 46 minutes East 2,544.7 feet; thence South 0 degrees, 14 minutes West 40 feet; thence South 89 degrees, 46 minutes East 1,874.5 feet; thence South 1,311.2 feet to a point in the North line of Jacob Wilcox Survey No. 35; thence South 6 degrees, 43 minutes East 1,094.6 feet; thence South 8 degrees, 23 minutes East 441.2 feet; thence South 11 degrees, 9 minutes East 410.8 feet; thence South 12 degrees, 57 minutes East 765.1 feet to the Northwest corner of the J. Wilcox Survey No. 34; thence South along West line of the J. Wilcox Survey No. 34 to the Northwest corner of school lot; thence East, South and West along the lines thereof to the West line of said Survey; thence South to the Southwest corner of said Wilcox Survey No. 34; thence South 89 degrees, 16 minutes East 2,959 feet to a point in the South line of said Wilcox Survey No. 34; thence South 14 degrees, 52 minutes East 122.2 feet; thence North 48 degrees, 29 minutes East 160 feet; thence South 86 degrees, 55 minutes East 163.5 feet; thence North

-20-

66 degrees, 51 minutes East 72.2 feet; thence South 35 degrees, 17 minutes East 163.3 feet; thence North 77 degrees, 40 minutes East 67 feet; thence South 56, degrees, 46 minutes East 168 feet; thence South 70 degrees, 39 minutes East 193.3 feet; thence South 15 degrees., 39 minutes East 171.8 feet; thence South 10 degrees, 49 minutes West 354.1 feet; thence South 4<sup>3</sup> degrees, 31 minutes East 249.7 feet; thence North 18 degrees, 34 minutes East 216.2 feet; thence North 8 degrees, 28 minutes East, 327.5 feet; thence South 88 degrees, 18 minutes East 353.5 feet; thence North 14 degrees, 34 minutes East 213 feet; thence North 11 degrees, 54 minutes West 273.7 feet; thence North 28 degrees, 36 minutes East 144 feet to a point in the North line of the Wilcox Survey No. 33; thence South 88 degrees, 33 minutes East 1,709.9 feet along the said line to the Northwest corner of a 101.8-acre tract acquired from C. H. Haley; thence South 0 degrees, 24 minutes West 1,319.4 feet to the Southwest corner of said tract; thence North 88 degrees, 9 minutes West 388.4 feet to the Northwest corner of the Ella Young tract; thence South 24 degrees, 34 minutes West 778.6 feet; thence North 75 degrees, 12 minutes West 225.3 feet; thence South 78 degrees, 16 minutes West 336.5 feet; thence South 58 degrees, 17 minutes West 234.8 feet; thence South 1 degree, 17 minutes West 270.8 feet; thence South 56 degrees, 58 minutes West 133.4 feet, thence South 65 degrees, 46 minutes West 261.8 feet; thence North 73 degrees, 14 minutes West 751 feet; thence North 77 degrees, 29 minutes West 339.1 feet; thence North 55 degrees, 45 minutes West 477.8 feet; thence North 21 degrees, 54 minutes West 181.5 feet; thence South 70 degrees, 51 minutes West 128 feet; thence North 55 degrees, 45 minutes West 232 feet; thence South 88 degrees, 30 minutes West 383.1 feet; thence North 72 degrees, 23 minutes West 471.8 feet; thence South 55 degrees, 6 minutes West 363.8 feet; thence South 3 degrees, 31 minutes West 681.3 feet; thence South 71 degrees, 39 minutes West, 347.2 feet; thence North 30 degrees, 13 minutes West 389.4 feet; thence South 59 degrees, 40 minutes West 336.4 feet; thence North 75 degrees, 3

-21-

minutes West 280.8 feet; thence North 43 degrees, 35 minutes West 593.4 feet; thence South 87 degrees, 39 minutes West 676.6 feet; thence South 45 degrees, 57 minutes West 655.8 feet; thence South 86 degrees, 18 minutes West 525.7 feet; thence North 70 degrees, 12 minutes West 556.7 feet; thence South 82 degrees, 49 minutes West 279 feet; thence South 75 degrees, 32 minutes West 769.9 feet to the Southwest corner of the J. Wilcox Survey No. 33; thence South 89 degrees 59 minutes West 693 feet to the Northwest corner of the A. M. Clear Survey; thence North 0 degrees, 1 minute West 159 feet to the Northeast corner of the M. De La Garza Survey; thence South 89 degrees, 59 minutes West 3,465.3 feet along the North line of said Survey to the Northwest corner thereof; thence South 0 degrees, 28 minutes West 4,981.2 feet to the Southwest corner of the Wilcox Survey No. 34; thence North 89 degrees, 59 minutes West 425 feet; thence South 0 degrees, 38 minutes East 2,627.6 feet to the South line of the North one-half Wilcox Survey No. 2; thence North 88 degrees, 32 minutes along the said line to the Southwest corner of the school lot; thence North, East and South to the said line; thence South 1 degree, 17 minutes West 791.1 feet; thence South 73 degrees, 17 minutes East 313.8 feet; thence South 25 degrees, 15 minutes East 138.8 feet; thence South 36 degrees, 19 minutes East 444.4 feet; thence South 27 degrees, 14 minutes East 702.7 feet; thence South 20 degrees, 58 minutes East, 738.6 feet; thence South 79 degrees, 30 minutes East 163 feet; thence South 74 degrees, 2 minutes East 144.4 feet; thence South 60 degrees, 2 minutes East 319.4 feet; thence South 64 degrees, 21 minutes East 454.2 feet to a point in the West line of the J. Armendaris Survey; thence South 0 degrees, 23 minutes East 1,284.7 feet to the Southwest corner thereof; thence South 89 degrees, 19 minutes East 2,754.7 feet along the North line of the A. B. Conner Survey; thence South 0 degrees, 41 minutes West 292, feet; thence South 89 degrees, 19 minutes East 1,774.4 feet to a point in the East line of the said Conner Survey; thence North 0 degrees, 14 minutes East 1,963

-22-

feet to a point in the South line of the Wilcox Survey No. 1; thence South 89 degrees, 19 minutes East 1,528 feet along the South line of said Survey to the Southeast corner of said Wilcox Survey No. 1; thence North 0 degrees, 41 minutes East 1,020 feet to the Southwest corner of the R. Langster Survey; thence South 88 degrees, 12 minutes East 1,211 feet to the Northeast corner of the J. O. Farmer Survey; thence South 0 degrees, 22 minutes West 3,816 feet to the Southeast corner of the G. W. Hazelwood Survey; thence North 89 degrees, 32 minutes West 1,111 feet; thence South 0 degrees, 28 minutes West 292.2 feet; thence South 42 degrees, 28 minutes West 316 feet; thence South 44 degrees, 32 minutes East 300 feet; thence South 0 degrees, 28 minutes West 160 feet; thence South 89 degrees, 32 minutes East 1,649 feet; thence South 0 degrees, 28 minutes West 588 feet; thence South 89 degrees, 22 minutes East 2,848.4 feet to a point in the East line of the D. E. Horton Survey; thence North 0 degrees, 43 minutes East 1,091.6 feet; thence South 89 degrees, 43 minutes East 1,980.5 feet to a point in the West line of the E. S. Terrell Survey; thence North 0 degrees, 13 minutes East 940 feet along said line to the Northwest corner of the E. S. Terrell Survey; thence South 89 degrees, 38 minutes East 327.7 feet; thence South 44 degrees, 38 minutes East 212 feet; thence South 89 degrees, 38 minutes East 150 feet; thence North 45 degrees, 22 minutes East 212 feet to a point in the North line of the E. S. Terrell Survey; thence South 89 degrees, 38 minutes East 1,448.3 feet along said line to the Northeast corner of said Survey; thence North 0 degrees, 51 minutes East 833.5 feet; thence North 20 degrees, 36 minutes East 436 feet; thence North 87 degrees, 41 minutes East 92 feet; thence South 65 degrees, 29 minutes East 137 feet; thence South 53 degrees, 24 minutes East 416 feet; thence South 24 degrees, 11 minutes East 561 feet; thence South 59 degrees, 50 minutes East 247.9 feet; thence North 82 degrees, 45 minutes East 1,387 feet to a point in the East line of the *Vean McDaniel* Survey; thence

North 62 degrees, 32 minutes East 1,386 feet to a point in the South line of the J. R. Rowland Survey; thence South 89 degrees, 22 minutes East along the said South line to the Northwest corner of the J. S. Hansborough Survey; *leaving the limits of the City of Fort Worth* thence <sup>1</sup>Southwesterly in a straight line to the Northwest corner of the B. L. Samuel Survey; thence South along the West line of said Samuel Survey to the Southwest corner of the Southwest corner of said Samuel Survey; thence South-  
*in a straight line*  
easterly to the Southeast corner of the R. Bissett Survey; thence Southerly to the Northeast corner of Block 30 of Arlington Heights, which is in the limits of the City of Fort Worth; thence along the limits of the City of Fort Worth as follows:

West along the North lines of Blocks 30 and 29 to the Northwest corner of 29 as originally platted, in the East line of Seventeenth Street; thence South along the East line of Seventeenth Street to the Southwest corner of Block 126 of second filing of Arlington Heights; thence East along the South line of the intervening Blocks to the Southeast corner of Block 134, said South line being one block South of Helmick Avenue; thence North along the East lines of the intervening blocks to the South line of Block 30, said East line being one block East of Pentacost Street; thence East along the South lines of the intervening blocks to the Southeast corner of Block 34, said South line being a North line of Bonnell Avenue produced; thence South to the Northwest line of Valentine Street; thence Northeast along the said North line to the Southwest line of Hopkins Street; thence Southeast along said line to the Northwest line of Granbury Road; thence Northeast along the said line to the South line of the W. D. Conner Survey; thence East along the South lines of the said Conner and of the T. White Surveys, to the North line of right-of-way of the Texas & Pacific Railway; thence Northeastwardly along said North line to the Granbury Road; thence North to the North line of said road; thence Northeastwardly along said North line to the West bank

of the Clear Fork of Trinity River; thence up the said West bank in a Southerly direction to the center line of the T & P Railway; thence running in a Southerly direction along the said West bank of the Clear Fork to a point where the same intersects the West line of the E. S. Harris Survey, thence South along the said West line of the E. S. Harris Survey, to the Southwest corner thereof; thence South 64 West 442 feet to the Northeast corner of the A. B. Conner Survey; thence West along the North line of the Conner Survey 1122 feet; thence South 1408 feet; thence West to an intersection with the East line of Boyd Avenue produced; thence South along the East line of Boyd Avenue produced and Boyd Avenue to an intersection with the North line of the tract upon which is situated the Municipal Golf Course; thence West to the Northwest corner of said Golf Course tract; thence South to the Southwest corner of the said tract; thence East to the Southeast corner thereof; thence North along the East line thereof to a point 40 feet West of the Northwest corner of the E. Sutherland Survey; thence East to the East line of the Cleburne Pike; thence Southwesterly and South along the said East line of Cleburne Pike to a point due East of the Northeast corner of the T. McCann Survey; thence West to the Northeast corner of the T. McCann Survey; thence West along the North line of the T. McCann Survey 262 feet to a point, thence South 600 feet to a point; thence East to the point of intersection with the East line of the Cleburne Pike; thence South along the East line of the Cleburne Pike to a point East of the Northeast corner of Horne Heights; thence West to the Northwest corner of Cole Highlands; thence South to the Southwest corner of Cole Highlands; thence East to the East line of Wellview Avenue; thence South along the said East line of Wellview Avenue to the North line of Spurgeon Street produced; thence East along said North line of Spurgeon Street to the West right-of-way line of the Santa Fe Railroad; thence South along said West right-of-way line to the South line of the Seminary Hill

Addition; thence East along the South line of the said Seminary Hill Addition to the West line of Reeves Avenue; thence North along the West line of said Reeves Avenue to the North line of Felix Street; thence East along the North line of Felix Street to the East line of Hemphill Street; thence North along the East line of Hemphill Street to the North line of Calvin Street; thence East along the North line of Calvin Street to the East right-of-way line of the M. K & T. Railroad, running between Fort Worth and Hillsboro; thence in a Northerly direction along the said East line of the M. K. & T. right-of-way to an intersection with the North line of Pafford Street, East of the M. K. & T Railroad; thence East along the North line of said Street to an intersection with the West line of South Pecan Street; thence North along the said West line of South Pecan Street to an intersection with the North line of the E. S. Ellis Survey produced; thence East to and along said North line of the Ellis Survey to the West line of the right-of-way of the main line of the I & G N Railway, thence in a Northerly direction with the West line of said main line right-of-way to its intersection with the West line of the spur track connecting the I & G N main line with the M. K. & T. Railway line; thence in a Northwesterly direction following the West line of the right-of-way of said I & G N spur track to its intersection with the West line of South Pecan Street; thence North along said West line to the Northwest corner of the George Hertseg Survey and the Southwest corner of the A. Stinson Survey; thence East along the North boundary line of the said Hertseg Survey to a point in the boundary line due South of an extension of the West boundary line of the B. F. Waller and the J. Sanderson Survey; thence Northerly along the said line to the Northwest corner of the S. P. Loving Survey; thence Easterly along the North boundary line of the S. P. Loving and the South boundary line of the E. S. Terrell Survey to the Westerly boundary line of the tract conveyed by the O. K. Cattle Company to the City of Fort Worth, and known as Cobb Park; thence Southerly,

Easterly and Northerly along the lines of said tract to an intersection with the South line of the said B. S. Terrell Survey; thence East along said line to the West line of the J. Justice Survey; thence North to the Northwest Corner of the J. Justice Survey; thence East along the North line of the J. Justice Survey to the East line thereof which is the West line of the R. R. Ramey Survey; thence North along said West line to the Middle line of the said Ramey Survey; thence East along said line in Tarrant Avenue to the East line of the said Ramey Survey; thence North along the East lines of the said Ramey and of the J. Tuel Survey to the South line of the P. Anderson Survey; thence East to the Southeast corner of the said Anderson Survey; thence North along the East line of the Anderson Survey to the South line of the right-of-way of the Texas & Pacific Railway; thence Eastwardly along said right-of-way line to the West line of the road called Tierney Road, which runs along the East line of the P. H. Ahler Survey; thence North along the West line of the said road to the North line of the Ederville road; thence West along said North line about 100 feet to the West line of the Tierney Road; thence North along said West line about 267 feet to the Northeast corner of the Ed. H. Shaw 1/2 acre tract; thence West along the North line of said tract and of the J. J. Sweet tract about 1108 feet to the East line of an unnamed Street along the East side of Edgewood Heights; thence North along the East line of said Street to a point East of the Northeast corner of Edgewood Heights; thence West along the North line of Edgewood Heights to the Northwest corner thereof in the East line of the Wm. Edwards Survey; thence North to the Northeast corner thereof; thence West along the North line of said Edwards Survey to the Southwest corner of the W. L. Tandy Survey; thence North along the West line of the W. L. Tandy Survey to the Northwest corner of said Tandy Survey; thence Northeasterly in a straight line to the ~~South end of the West~~ <sup>South end of the West</sup> corner of the J. Brockman Survey; thence East along <sup>a line between said Brockman</sup> ~~the South line of the said Brockman~~

*line of* Survey and the J. W. Haynes Survey and along said line produced to the West line of the H. Robinson Survey.

~~Survey to the Southeast corner of said Breakman Survey;~~ thence Northeasterly in a straight line to the Northwest corner of the G. W. Main Survey; thence East along the North line of the said Main Survey to the Northeast corner of said Main Survey; thence Northeasterly in a straight line to the Northeast corner of the W. Masters Survey; thence Southeasterly in a straight line to the Southwest corner of the J. R. Newton Survey; thence East along the South line of the J. R. Newton and A. Hampton Surveys to the Southeast corner of the A. Hampton Survey; thence Southeast<sup>evly in a straight line</sup> to the Southwest corner of the W. G. Elkins Survey; thence East along the South line of said Elkins Survey to the Southeast corner of said Elkins Survey; thence Northeasterly in a straight line to the *North* point of the T. J. Dalton Survey; thence Southeasterly in a straight line to the Southwest corner of the P. G. Dalton Survey; thence East along the South line of said P. G. Dalton Survey to the Northwest corner of the T. Dalton Survey; thence South along the *West* line of said T. Dalton Survey to the Southwest corner of said T. Dalton Survey; thence East along the South line of said T. Dalton Survey to the Southeast corner of said T. Dalton Survey; thence Northeasterly in a straight line to the Northeast corner of the M. Coleman Survey; thence East along the North line of the J. W. Haynes Survey to the Northeast corner of the said Haynes Survey; thence North along the line between the two J. Brown Surveys to the Southwest corner of the H. Underwood Survey; thence East along the South line of said Underwood Survey to the Southeast corner of said Underwood Survey; thence Southwasterly in a straight line to the intersection in the South line of the H. P. Croker Survey with the East line of Tarrant County; thence North along the East line of Tarrant County to the North line of the George Burgoon Survey; thence West along the South line of the H. Atkinson, Chas. Baker and J. A. Burgoon Surveys to the Southwest corner of the J. A. Burgoon Survey; thence Northwesterly in a straight line to the Northwest corner of the R. Worthington Survey, thence

West along the South line of the E. C. Clary Survey to the Northeast corner of the J. H. Hughes Survey; thence South along the East line of the J. H. Hughes, J. R. Doss, J. S. Field, L. Franklin, G. Linney, J. M. Cummings, J. P. Halford and A. J. Huitt Surveys to the Northeast corner of the E. Rogers Survey; thence West along the North line of the E. Rogers and A. M. Downing Surveys to the Northwest corner of said Downing Survey; thence South along the West boundary of said Downing Survey to the Southwest corner of said Downing Survey; thence West along the South line of the J. Matson Survey to the Southwest corner of said Matson Survey; thence North along the West line of said Matson Survey to the South line of the W. O. Yantis Survey; thence West along the South line of the W. O. Yantis and W. T. Darby Surveys to the Southwest corner of the W. T. Darby Survey; thence Northwesterly in a straight line to the Southeast corner of the D. C. Manning Survey, thence West along the South line of the D. C. Manning and L. C. Walker Surveys, and along said South line produced to the Southeast line of the Grapevine-Cardinal Road; thence Southwesterly along the Southeast line of the Grapevine-Cardinal Road to the North line of the A. G. Walker Survey; thence West along the North line of the A. G. Walker and M. Lynch Surveys to the Southeast corner of the R. P. Barton Survey; thence North along the East line of the R. P. Barton Survey to the North line of the W. A. Tremble and heirs of S. Sawyer Surveys produced; thence West along the said North line to the Northwest corner of the heirs of S. Sawyer Survey, thence South along the West line of said Sawyer Survey to the Northwest corner of the H. F. Largent Survey; thence Southwesterly in a straight line to the Northwest corner of the J. W. Elliston Survey; thence South along the West line of the J. W. Elliston Survey to the Northeast corner of the J. B. York Survey; thence West along the North line of the J. B. York, C. B. Daggett and S. K. Smith Surveys to the West line of Sterling Street, or Denton Avenue, which is a limit of the City of Fort Worth; thence along said limits of the City of Fort Worth as follows;

North along said West line to a point 787 feet North of the South line of the J. Bursey Survey; thence West to the East line of the road along the East line of Postepce Heights; thence South along said East line to a point East of the Northeast corner of Block 24 of Postepce Heights; thence West along the North lines of Blocks 24 to 34 said Postepce Heights to the West line of Main Street; thence North along said West line to the South line of Thirty-seventh Street; thence West along said South line to the East line of Refugio Avenue; thence South along the said East line Refugio Avenue to the point of intersection with the South line of Thirty-fifth Street; thence West along the South line of Thirty-fifth Street to the point of intersection with the East line of the road known as the Azle Road; thence to a general Southerly direction along the East line of said Azle Road to the point of intersection with the South line of Thirty-third Street produced; thence West along the South line of Thirty-third Street produced to the intersection with the Southwest line of thirty-second Street; thence Northwest along the Southwest line of Thirty-second Street to the point of intersection with the East line of Taylor Avenue; thence along the East line of said Taylor Avenue to the point of intersection with the North line of Twenty-first Street produced; thence in a Southeasterly direction along said North line of Twenty-first Street produced and Twenty-first Street to the West line of the P. Moore Survey; thence, leaving the limits of the City of Fort Worth, Southwesterly in a straight line to the Northeast corner of the J. P. Lusk Survey; thence West along the North line of said Lusk Survey to the Northwest corner of said Lusk Survey, thence South along the West line of said Lusk Survey to the Northeast corner of the N. H. Carroll Survey; thence West along the North line of said Carroll Survey to the center line of the West Fork of the Trinity River; thence Northerly with the meanders thereof to the West line of the J. D. Quinn Survey; thence North along the West line of the J. D. Quinn Survey to the Northwest corner of said Quinn Survey, which point is

in the limits of the City of Fort Worth; thence *with* the limits of the City of Fort Worth, as follows:

South 89 degrees, 59 minutes East 2,163.6 feet; thence North 0 degrees, 1 minute West 1,273 feet; thence North 75 degrees, 29 minutes West 2,011.5 feet; thence North 0 degrees, 6 minutes East 763.4 feet; thence South 89 degrees, 32 minutes West 1,651.3 feet; thence South 0 degrees, 18 minutes East 417.8 feet to the Southeast corner of the J. M. Basques Survey; thence South 89 degrees, 58 minutes West 2,909 feet; thence South 45 degrees, 5 minutes West 799 feet; thence South 0 degrees, 18 minutes West 634 feet; thence North 89 degrees, 42 minutes West 1,904.4 feet; thence North 0 degrees, 18 minutes East 200 feet; thence North 89 degrees, 42 minutes West 803.2 feet; thence North 44 degrees, 42 minutes West 848.5 feet; thence North 0 degrees, 18 minutes West 397 feet to the Northeast corner of the H. B. Smallwood Survey; thence North 89 degrees, 34 minutes West 3,765.3 feet; thence North 0 degrees, 45 minutes East 2,361.3 feet; thence North 45 degrees, 35 minutes East 1,701.4 feet; thence South 44 degrees, 44 minutes East 462.7 feet; thence South 88 degrees, 48 minutes East 440.4 feet; thence North 1 degree, 11 minutes East 509.6 feet to a point in the South line of the M. Townsend Survey; thence North 86 degrees, 48 minutes West 200 feet to the Southeast corner of the tract acquired from Wm. Charbonneau; thence Northwest 30 degrees, 40 minutes West 284 feet; thence North 53 degrees, 51 minutes West 147.4 feet; thence North 73 degrees, 56 minutes West 136.7 feet; thence North 70 degrees, 9 minutes West 168.5 feet; thence North 78 degrees, 11 minutes West 138.5 feet; thence North 55 degrees, 53 minutes West 142.5 feet; thence North 24 degrees, 56 minutes West 1,075.6 feet; thence North 4 degrees, 30 minutes West 477 feet to a corner in the old nine-mile bridge road, which point is several hundred feet Southeast from the location of the old nine-mile bridge; thence Northeasterly to the most Westerly Southeast corner of the tract acquired from J. Hodgkins

in the South line of the J. Breeding Survey; thence North 6 degrees, 3 minutes East 338 feet; thence North 47 degrees, 10 minutes West 352 feet; thence North 4 degrees, 8 minutes East 212.4 feet; thence North 58 degrees, 48 minutes East 286.6 feet; thence South 20 degrees, 14 minutes East 192.9 feet; thence South 40 degrees, 32 minutes East 202.7 feet; thence South 86 degrees, 21 minutes East 350.3 feet; thence South 61 degrees, 51 minutes East 336.8 feet; thence South 18 degrees, 18 minutes East 329.1 feet; thence South 52 degrees, 44 minutes East 97.1 feet to a point in the South line of the J. Breeding Survey; thence West 89 degrees, 21 minutes East with said line 450.7 feet to a point; thence North 14 degrees, 36 minutes West 482; thence South 44 degrees, 19 minutes West 241.6 feet; thence North 23 degrees, 58 minutes West 336.5 feet; thence North 34 degrees, 36 minutes West 208 feet; thence North 80 degrees, 19 minutes East 229.2 feet; thence North 9 degrees, 8 minutes East 73.4 feet; thence North 46 degrees, 58 minutes West 129.5 feet; thence North 53 degrees, 1 minute West 136.4 feet; thence North 30 degrees, 50 minutes West 167.2 feet; thence North 41 degrees, 40 minutes East 252.5 feet; thence North 84 degrees, 2 minutes West 320.5 feet; thence North 6 degrees, 37 minutes East 162.6 feet; thence North 58 degrees, 50 minutes East 395.2 feet; thence North 19 degrees, 42 minutes East 502.6 feet to a point in the North line of the J. Breeding Survey, which point is the most Northerly Northeast corner of the J. Hodgkins tract; thence North 89 degrees, 10 minutes East 29.7 feet to a point in the South line of the N. B. Breeding Survey, and is the Southeast corner of the tract acquired of G. R. Williams; thence North 20 degrees, 3 minutes East 537.4 feet; thence North 4 degrees, 13 minutes East 1,449 feet; thence North 38 degrees, 6 minutes West 465 feet to a point in the South line of the S. T. Townsend Survey, which point is the Northeast corner of the G. R. Williams tract and the Southeast corner of a tract acquired from J. M. Holley, thence North 27 degrees, 5 minutes East 496 feet; thence North 75 degrees, 30 minutes

East 352.8 feet; thence North 5 degrees, 50 minutes West 315.2 feet; thence North 74 degrees, 39 minutes West 548.2 feet; thence South 4 degrees, 15 minutes West 258.6 feet; thence North 89 degrees, 50 minutes West 435.7 feet to an eight-inch live oak; thence North 55 degrees, 45 minutes West 821.9 feet to a fifteen-inch post oak; thence North 85 degrees, 15 minutes West 407.6 feet; thence North 20 degrees, 0 minutes West 470.8 feet; thence North 21 degrees, 45 minutes West 524.3 feet; thence South 87 degrees, 50 minutes East 277.4 feet; thence North 1 degree, 50 minutes West 381.4 feet to a point in the South line of the H. Dikeman Survey; thence North 89 degrees, 50 minutes West along said line 349 feet; thence North 0 degrees, 30 minutes West 651 feet to a point which is the South corner of a tract acquired from Wm. Fund; thence North 40 degrees, 30 minutes East 919.3 feet; thence North 0 degrees, 40 minutes West 636. feet; thence North 64 degrees, 30 minutes West 371.2 feet to an ash tree; thence South 21 degrees, 15 minutes West 650 feet; thence South 38 degrees, 15 minutes West 1,130.5 feet; thence South 40 degrees, 0 minutes West 914.2 feet to a fifteen-inch live oak tree; thence South 76 degrees, 45 minutes West 879.3 feet to a fifteen-inch post oak; thence South 78 degrees, 30 minutes West 349 feet to a twenty-four inch post oak tree; thence, North 31 degrees, 35 minutes West 396 feet to a point in the West line of the H. Dikeman Survey, which point is 217 feet north of the Southwest corner of said Survey; thence North 1 degree, 30 minutes West along said line 961.5 feet to a point; thence South 65 degrees, 36 minutes West 161.1 feet; thence North 88 degrees, 58 minutes West 191.6 feet; thence North 11 degrees, 18 minutes West 753.3 feet; thence North 18 degrees, 58 minutes West 1,103 feet to a point in South line of the C. A. Kuykendall Survey; thence North 88 degrees 42 minutes East 50 feet, to the Southeast corner of a lease to the City of Fort Worth; thence North 8 degrees, 45 minutes East 2,238.8 feet; thence North 29 degrees, 3

degrees, 20 minutes West 197.2 feet; thence North 64 degrees, 30 minutes West 161 feet; thence North 37 degrees, 0 minutes West 1,358.9 feet; thence North 43 degrees, 45 minutes West 1,222.2 feet; thence South 16 degrees, 15 minutes West 225 feet; thence South 25 degrees, 30 minutes West 1,072.2 feet; thence North 51 degrees, 45 minutes West 960 feet; thence North 20 degrees, 40 minutes West to the South line of the San Rosen Tract, which is the Northeast corner of the lease; thence South 89 degrees, 17 minutes East along said South line to the West line of the Fort Worth and Azle Road; thence North 12 degrees, 50 minutes West 697. feet; thence North 10 degrees, 35 minutes West 528.6 feet; thence North 42 degrees, 41 minutes West 628.4 feet to the South end of the Ten-Mile Bridge; thence, leaving the limits of the City of Fort Worth, Northeasterly in a straight line to the Southwest corner of the B. Whitley Survey; thence North along the West line of said Whitley Survey to the Northwest corner of said Whitley Survey; thence West along the North line of the D. C. Face Survey *Which is the southwest corner of the Heirs of Benj. Thomas Survey.* to the Southeast corner of the G. S. Rall Survey, thence North along the East line of the Geo. S. Rall and J. H. Simmons Surveys to the South line of the J. N. Reed Survey; thence East along the South line of the J. N. Reed Survey to the Southeast corner of the Said Reed Survey; thence North along the East line of said Reed Survey to the Northeast corner of said Reed Survey; thence *West*erly in a straight line to the Northeast corner of the J. P. Smith Survey; thence Northerly in a straight line to the Southwest corner of the J. M. Crofford Survey; thence North along the West line of the J. M. Crofford, M. Townsend and J. S. Lee Surveys to the Northwest corner of the J. S. Lee Survey; thence East along the North line of the J. S. Lee Survey to the Northeast corner of said Survey; thence Easterly to the Southwest corner of the G. G. Young Survey; thence East along the South line of the G. G. Young and Volney Hall Surveys to the Southeast corner of the Volney Hall Survey; thence North along the East line of the Volney Hall and T & P R R Company Surveys and

-34-

along said line produced to the Southwest property line of the Chicago, Rock Island & Gulf Ry; thence Northwesterly along said Southwest property line to the North line of Tarrant County; thence West along the North line of Tarrant County to the point of beginning.

Provided however, that nothing contained herein shall be construed to relieve the lands or any part of same so excluded from the District from any lawful assessment of taxes heretofore made.

And the motion to adopt said resolution having been submitted by the Chair, all the Directors voted "Aye" thereon and none of the Directors voted "No".

And, thereupon, Director Hugh M. Hightower made a motion which was seconded by W. E. Bideker that the following resolution be adopted, to-wit: "Resolved that notice of the foregoing resolution and order of exclusion enacted by this board on June 1st, 1926 be given by publication once a week for two consecutive weeks in a news paper published in Tarrant County, Texas, and that notice of such action be also given to the owners of the lands excluded in that area eliminated from the District as aforesaid."

And, the motion to adopt said resolution having been presented to the Board, same was unanimously adopted, all the Directors voting "aye".

W. E. Bideker

Secretary.

AUG 2 - 1926

THE STATE OF TEXAS, COUNTY OF TARRANT.

NOTICE OF THE EXCLUSION OF LANDS FROM TARRANT COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1:

NOTICE is hereby given to the public and to all persons who may be concerned or interested therein, that at a meeting of the Board of Directors of the Tarrant County Water Control and Improvement District No. 1, held at the office of the Board in the City of Fort Worth, Texas, on June 1, 1926, the following action was had and taken by the Board with respect to the exclusion of certain lands from said district, which said proceedings were in words and figures as follows, to-wit:

At a meeting of the Board of Directors of TARRANT COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1, held in the City of Fort Worth, Texas, on the 1st day of June, A. D. 1926, at which were present:

- W. E. Bideker, H. M. Hightower, L. C. Abbott, A. L. Baker,

constituting the entire membership of the Board as at present constituted, at which meeting A. L. Baker, the President of the Board, presided and W. E. Bideker, the Secretary thereof, was in attendance, among other things the following proceedings were had and done:

The President stated to the Board that the engineering data had been assembled and that investigation had been made with respect to lands irrigable and non-irrigable, and those protected from flood and those not protected from flood, lying outside the corporate limits of the City of Fort Worth but within the District as now defined, and that the consideration for the present meeting was as to whether lands deemed non-irrigable and those not protected from flood by the proposed works, lying outside the corporate limits of the City of Fort Worth, but otherwise within the District, should still be held within the District or be excluded therefrom:

THEREUPON, discussion ensued and consideration was then had of the protest which had been lodged with the Board of Directors by property owners of land outside the City Limits of Fort Worth, and within the District; consideration was also had of the report of the engineers showing the elevation and topography of lands within the District lying outside the City of Fort Worth.

It then became the consensus of opinion that those lands deemed non-irrigable or not to be protected from flood lying outside of the City of Fort Worth, but within the limits of the District as now defined, should be excluded from the District because of the prohibitive cost that would be involved, both with respect to irrigation and with respect to flood control and water supply as well.

Following this unanimous expression of opinion, a motion was made by Director H. M. Hightower, seconded by

Beginning at the Northeast corner of Tarrant County, thence South along the East line of Tarrant County to the North line of the George Burgoon Survey; thence West along the South line of the H. Atkinson, Chas. Baker and J. A. Burgoon Surveys to the Southwest corner of the J. A. Burgoon Survey; thence Northwesterly in a straight line to the Northwest corner of the R. Worthington Survey, thence West along the South line of the E. C. Clary Survey to the Northeast corner of the J. H. Hughes Survey; thence South along the East line of the J. H. Hughes, J. R. Doss, J. E. Field, L. Franklin, G. Linney, J. M. Cummings, J. P. Halford and A. J. Huitt Surveys to the Northeast corner of the E. Rogers Survey; thence West along the North line of the E. Rogers and A. M. Downing Surveys to the Northwest corner of said Downing Survey; thence South along the West boundary of said Downing Survey to the Southwest corner of said Downing Survey; thence West along the South line of the J. Matson Survey to the Southwest corner of said Matson Survey; thence North along the West line of said Matson Survey to the South line of the W. O. Yantis Survey, thence West along the South line of the W. O. Yantis and W. T. Darby Surveys to the Southwest corner of the W. T. Darby Survey; thence Northwesterly in a straight line to the Southeast corner of the D. C. Manning Survey, thence West along the South line of the D. C. Manning and L. C. Walker Surveys, and along said South line produced to the Southeast line of the Grapevine-Cardinal Road; thence Southwesterly along the Southeast line of the Grapevine-Cardinal Road to the North line of the A. G. Walker Survey, thence West along the North line of the A. G. Walker and M. Lynch Surveys to the Southeast corner of the R. P. Barton Survey; thence North along the East line of the R. P. Barton Survey to the North line of the W. A. Tremble and Heirs of S. Sawyer Surveys produced; thence West along the said North line to the Northwest corner of the Heirs of S. Sawyer Survey, thence South along the West line of said Sawyer Survey to the Northwest corner of the H. F. Largent Survey; thence Southwesterly in a straight line to the Northwest corner of the J. W. Elliston Survey, thence South along the West line of the J. W. Elliston Survey to the Northeast corner of the J. B. York Survey; thence West along the North line of the J. B. York, C. B. Daggett and S. K. Smith Surveys to the West line of Sterling Street, or Denton Avenue, which is a limit of the City of Fort Worth; thence along said limits of the City of Fort Worth as follows:

North along said West line to a point 787 feet North of the South line of the J. Bursay Survey; thence West to the East line of the road along the East line of Fostepco Heights; thence South along said East line to a point East of the Northeast corner of Block 24 of Fostepco Heights; thence West along the North lines of Blocks 24 to 34 said Fostepco Heights to the West line of

West 1,075.6 feet; thence North 4 degrees, 30 minutes West 477 feet to a corner in the old nine-mile bridge road, which point is several hundred feet Southeast from the location of the old nine-mile bridge; thence Northwesterly to the most Westerly Southeast corner of the tract acquired from J. Hodgkins in the South line of the J. Breeding Survey; thence North 6 degrees, 3 minutes East 338 feet; thence North 47 degrees, 10 minutes West 352 feet; thence North 4 degrees, 8 minutes East 212.4 feet; thence North 58 degrees, 48 minutes East 286.6 feet; thence South 20 degrees, 14 minutes East 192.9 feet; thence South 40 degrees, 32 minutes East 202.7 feet; thence South 86 degrees, 21 minutes East 350.3 feet; thence South 61 degrees, 51 minutes East 335.8 feet; thence South 18 degrees, 18 minutes East 329.1 feet; thence South 52 degrees, 44 minutes East 97.1 feet to a point in the South line of the J. Breeding Survey; thence West 89 degrees, 21 minutes East with said line 450.7 feet to a point; thence North 14 degrees, 36 minutes West 482; thence South 44 degrees, 19 minutes West 241.6 feet; thence North 23 degrees, 58 minutes West 335.5 feet; thence North 34 degrees, 36 minutes West 208 feet; thence North 80 degrees, 19 minutes East 229.2 feet; thence North 9 degrees, 8 minutes East 73.4 feet; thence North 46 degrees, 58 minutes West 129.5 feet; thence North 53 degrees 1 minute West 136.4 feet; thence North 30 degrees, 50 minutes West 167.2 feet; thence North 41 degrees, 40 minutes East 252.5 feet; thence North 84 degrees, 2 minutes West 320.5 feet; thence North 6 degrees, 37 minutes East 162.8 feet; thence North 58 degrees, 50 minutes East 395.2 feet; thence North 19 degrees, 42 minutes East 502.8 feet to a point in the North line of the J. Breeding Survey, which point is the most Northerly Northeast corner of the J. Hodgkins tract; thence North 89 degrees, 10 minutes East 29.7 feet to a point in the South line of the N. B. Breeding Survey, and is the Southeast corner of the tract acquired of G. R. Williams; thence North 20 degrees, 3 minutes East 537.4 feet; thence North 4 degrees, 13 minutes East 1,449 feet; thence North 38 degrees, 6 minutes West 465 feet to a point in the South line of the S. T. Townsend Survey, which point is the Northeast corner of the G. R. Williams tract and the Southeast corner of a tract acquired from J. M. McNay, thence North 27 degrees, 5 minutes East 496 feet; thence North 75 degrees, 30 minutes East 352.8 feet; thence North 5 degrees, 50 minutes West 315.2 feet; thence North 74 degrees, 30 minutes West 548.2 feet; thence South 4 degrees, 15 minutes West 458.6 feet; thence North 89 degrees, 50 minutes West 435.7 feet to an eight-inch live oak; thence North 55 degrees, 45 minutes West 821.9 feet to a fifteen-inch post oak; thence North 85 degrees, 15 minutes West 407.6 feet; thence North 20 degrees, 0 minutes West 470.8 feet; thence North 21 degrees, 45 minutes West 524.3 feet; thence South 87 degrees, 50 minutes East 277.4 feet; thence North 1 degree 50 minutes West 381.4

veys to the Southeast corner of the Volney Hall Survey; thence North along the East line of the Volney Hall and T. & P. R. R. Company Surveys and along said line produced to the Southwest property line of the Chicago, Rock Island & Gulf Ry.; thence Northwesterly along said Southwest property line to the North line of Tarrant County; thence East along the North line of Tarrant County to the point of beginning, also the following:

Beginning at the Southwest corner of Tarrant County; thence North along the West line of Tarrant County to the North line of the R. A. Paschal Survey; thence East along the North line of said Paschal Survey to the Northeast corner of said Paschal Survey; thence South along the East line of said Paschal Survey to the Northwest corner of the J. Armendaris Survey; thence East along the North line of the said Armendaris Survey to the Northeast corner of said Armendaris Survey; thence Southeasterly in a straight line to a point South 88 degrees, 52 minutes West 2,598.9 feet from the Northeast corner of the J. Wilcox Survey Number 42, which point is in the limits of the City of Fort Worth, as follows: South 0 degrees, 26 minutes West 2,538.7 feet; thence South 89 degrees, 38 minutes East 450.4 feet; thence South 26 degrees, 43 minutes East 2,958.9 feet to a point in the South line of the J. Wilcox Survey No. 42; thence North 89 degrees East along said line 884.3 feet to the West line of the Mary Todd tract; thence South 0 degrees, 5 minutes West 2,801.5 feet to the Southwest corner of the J. Wilcox Survey No. 46; thence South 0 degrees, 14 minutes East 1,391.7 feet to a point in West line of J. Wilcox Survey No. 36 and the North line of a road; thence South 89 degrees, 46 minutes East 2,544.7 feet; thence South 0 degrees, 14 minutes West 40 feet; thence South 89 degrees, 46 minutes East 1,874.5 feet; thence South 1,311.2 feet to a point in the North line of Jacob Wilcox Survey No. 35; thence South 6 degrees, 43 minutes East 1,044.6 feet; thence South 8 degrees, 23 minutes East 441.2 feet; thence South 11 degrees, 9 minutes East 410.8 feet; thence South 12 degrees, 57 minutes East 765.1 feet to the Northwest corner of the J. Wilcox Survey No. 34; thence South along West line of the J. Wilcox Survey No. 34 to the Northwest corner of school lot; thence East, South and West along the lines thereof to the West line of said Survey; thence South to the Southwest corner of said Wilcox Survey No. 34; thence South 89 degrees, 16 minutes East 2,959 feet to a point in the South line of said Wilcox Survey No. 34; thence South 14 degrees, 52 minutes East 122.2 feet; thence North 48 degrees, 29 minutes East 160 feet; thence South 86 degrees, 55 minutes East 163.5 feet; thence North 66 degrees, 51 minutes East 72.2 feet; thence South 35 degrees, 17 minutes East 163.3 feet; thence North 77 degrees, 40 minutes East 67 feet; thence South 56 degrees, 46 minutes East 168 feet; thence South 70 degrees, 39 minutes East 193.3

feet; thence South 64 degrees, 21 minutes East 454.2 feet to a point in the West line of the J. Armendaris Survey; thence South 0 degrees, 23 minutes East 1,234.7 feet to the Southwest corner thereof; thence South 89 degrees, 19 minutes East 2,754.7 feet along the North line of the A. B. Conner Survey; thence South 0 degrees, 41 minutes West 292 feet; thence South 89 degrees, 19 minutes East 1,774.4 feet to a point in the East line of the said Conner Survey; thence North 0 degrees, 14 minutes East 1,963 feet to a point in the South line of the Wilcox Survey No. 1; thence South 89 degrees, 19 minutes East 1,528 feet along the South line of said Survey to the Southeast corner of said Wilcox Survey No. 1; thence North 0 degrees, 41 minutes East 1,020 feet to the Southwest corner of the R. Langster Survey; thence South 88 degrees, 12 minutes East 1,211 feet to the Northeast corner of the J. O. Farmer Survey; thence South 0 degrees, 22 minutes West 3,816 feet to the Southeast corner of the G. W. Hazelwood Survey; thence North 89 degrees, 32 minutes West 1,111 feet; thence South 0 degrees, 28 minutes West 292.2 feet; thence South 42 degrees, 28 minutes West 316 feet; thence South 44 degrees, 32 minutes East 300 feet; thence South 0 degrees, 28 minutes West 160 feet; thence South 89 degrees, 32 minutes East 1,649 feet; thence South 0 degrees, 28 minutes West 588 feet; thence South 89 degrees, 22 minutes East 2,848.4 feet to a point in the East line of the D. E. Norton Survey; thence North 0 degrees, 43 minutes East 1,691.6 feet; thence South 89 degrees, 43 minutes East 1,980.5 feet to a point in the West line of the E. S. Terrell Survey; thence North 0 degrees, 13 minutes East 940 feet along said line to the Northwest corner of the E. S. Terrell Survey; thence South 89 degrees, 38 minutes East 327.7 feet; thence South 44 degrees, 38 minutes East 212 feet; thence South 89 degrees, 38 minutes East 150 feet; thence North 45 degrees, 22 minutes East 212 feet to a point in the North line of the E. S. Terrell Survey; thence South 89 degrees, 38 minutes East 1,448.3 feet along said line to the Northeast corner of said Survey; thence North 0 degrees, 51 minutes East 833.5 feet; thence North 20 degrees, 36 minutes East 436 feet; thence North 87 degrees, 41 minutes East 92 feet; thence South 65 degrees, 29 minutes East 137 feet; thence South 53 degrees, 24 minutes East 416 feet; thence South 24 degrees, 11 minutes East 561 feet; thence South 59 degrees, 50 minutes East 247.9 feet; thence North 82 degrees, 45 minutes East 1,387 feet to a point in the East line of the Veau McDaniel Survey; thence North 62 degrees, 32 minutes East 1,386 feet to a point in the South line of the J. R. Rowland Survey; thence South 89 degrees, 22 minutes East along the said South line to the Northwest corner of the J. S. Hansborough Survey; thence, leaving the limits of the City of Fort Worth, Southwesterly in a straight line to the Northwest corner of the B. L. Samuel Survey; thence South

the District lying outside the City of Fort Worth.

It then became the consensus of opinion that those lands deemed non-irrigable or not to be protected from flood lying outside of the City of Fort Worth, but within the limits of the District as now defined, should be excluded from the District because of the prohibitive cost that would be involved, both with respect to irrigation and with respect to flood control and water supply as well.

Following this unanimous expression of opinion, a motion was made by Director H. M. Hightower, seconded by Director W. E. Bideker, that the following resolution be adopted, to-wit:

"Whereas, Section 76 of Chapter 25 (Senate Bill No. 169) of the Act of the Thirty-ninth Legislature, passed at the session which convened in January 13, 1925, and adjourned March 19, 1925,

has been organized and the directors shall find that the land has been included within the boundaries of the district that should not have been included therein for the reason that same cannot be supplied with water from the plant and improvements to be constructed by the district, or for other good reasons, and such facts are ascertained and determined before bonds are issued, the directors may make an order entering on their minutes excluding such lands from the district and give notice thereof to the owners of such lands by mail. Notice thereof shall also be given by publication of notice once a week for two consecutive weeks in a newspaper published in the county or counties in which such district is situated. The owners of any such land may file protest thereto at any time within thirty days after the publication of notice and in the event of such protest such lands shall not be excluded therefrom. In the event no protest thereto is filed, such order excluding such lands shall become and be effective thirty days after publication of notice thereof is complete, whereupon said order excluding such lands shall be filed for record in the office of the county clerk of the county in which such lands are located;" and

Whereas, the preliminary surveys of the District constituting Tarrant County Water Control and Improvement District No. 1, have been made and completed; and

Whereas, the data of the engineers have been assembled by which it can now be determined what lands may be included within the District so that the purposes of the District may be accomplished without prohibitive cost; and

Whereas, it now appears from the elevation and topography of much of the lands within the District outside the limits of the City of Fort Worth, that to extend to same the scope of any of the purposes and objects for which the District was organized would be prohibitive in cost and lay too great a burden upon all the property within the district; and

Whereas, the Board has received and considered the protest of many of the property owners within the District against the inclusion of their property within such District and the said Board has reached a conclusion thereon; and

Whereas, the Board has now determined on those lands lying outside the corporate limits of the City of Fort Worth, but otherwise within the District, which should be excluded from the District, because of their being non-irrigable or because of their not being protected from flood, and further because of the prohibitive cost to the District which would be involved in seeking to extend to such lands the purposes and objects for which the District was organized by law;

THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF TARRANT COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 1 BY THE AUTHORITY VESTED IN THE BOARD:

That the following described lands lying outside the corporate limits of the City of Fort Worth, but situated within the said District, be and they are hereby excluded therefrom, to-wit:

Daggett and S. K. Smith Surveys to the West line of Sterling Street, or Denton Avenue, which is a limit of the City of Fort Worth; thence along said limits of the City of Fort Worth as follows:

North along said West line to a point 787 feet North of the South line of the J. Bursey Survey; thence West to the East line of the road along the East line of Fostepco Heights; thence South along said East line to a point East of the Northeast corner of Block 24 of Fostepco Heights; thence West along the North lines of Blocks 24 to 34 said Fostepco Heights to the West line of Main Street; thence North along said West line to the South line of Thirty-seventh Street; thence West along said South line to the East line of Refugio Avenue; thence South along the said East line Refugio Avenue to the point of intersection with the East line of the road known as Street Road; thence in a general Southward direction along the East line of said Azle Road to the point of intersection with the South line of Thirty-third Street produced; thence West along the South line of Thirty-third Street produced to the intersection with the Southwest line of Thirty-second Street; thence Northwest along the Southwest line of Thirty-second Street to the point of intersection with the East line of Taylor Avenue; thence along the East line of said Taylor Avenue to the point of intersection with the North line of Twenty-first Street produced; thence in a Southeastly direction along said North line of Twenty-first Street produced and Twenty-first Street to the West line of the P. Moore Survey; thence, leaving the limits of the City of Fort Worth, Southwestly in a straight line to the Northeast corner of the J. P. Lusk Survey; thence West along the North line of said Lusk Survey to the Northwest corner of said Lusk Survey, thence South along the West line of said Lusk Survey to the Northeast corner of the N. H. Carroll Survey; thence West along the North line of said Carroll Survey to the center line of the West fork of the Trinity River; thence Northly with the meanders thereof to the West line of the J. D. Quinn Survey; thence North along the West line of the J. D. Quinn Survey to the Northeast corner of said Quinn Survey, which point is in the limits of the City of Fort Worth; thence with the limits of the City of Fort Worth as follows:

West 89 degrees, 59 minutes east, 2,163.6 feet; thence North 0 degrees, 1 minute west, 1,273 feet; thence North 75 degrees, 29 minutes west 2,011.5 feet; thence North 0 degrees, 6 minutes East 763.4 feet; thence South 89 degrees, 32 minutes West 1,651.3 feet; thence South 0 degrees, 11 minutes East 417.8 feet to the Southeast corner of the J. M. Basques Survey; thence South 89 degrees, 58 minutes West 2,909 feet; thence South 45 degrees, 5 minutes West 799 feet; thence South 0 degrees, 18 minutes West 634 feet; thence North 89 degrees, 42 minutes west 1,904.4 feet; thence North 0 degrees, 18 minutes East 200 feet; thence North 89 degrees, 42 minutes West 803.2 feet; thence North 44 degrees, 42 minutes West 848.5 feet; thence North 0 degrees, 18 minutes West 397 feet to the Northeast corner of the H. B. Smallwood Survey; thence North 89 degrees, 34 minutes West 3,765.3 feet; thence North 0 degrees, 45 minutes East 2,361.3 feet; thence North 45 degrees, 35 minutes East 1,701.4 feet; thence South 44 degrees, 44 minutes East 462.7 feet; thence South 88 degrees, 48 minutes East 440.4 feet; thence North 1 degree, 11 minutes East 509.6 feet to a point in the South line of the M. Townsend Survey; thence North 88 degrees, 48 minutes West 200 feet to the Southeast corner of the tract acquired from Wm. Charbonneau; thence Northwest 30 degrees, 40 minutes West 284 feet; thence North 53 degrees, 51 minutes West 147.4 feet; thence North 73 degrees, 50 minutes West 136.7 feet; thence North 70 degrees, 9 minutes West 168.5 feet; thence North 78 degrees, 11 minutes West 138.5 feet; thence North 55 degrees, 53 minutes West 142.5 feet; thence North 24 degrees, 56 minutes

496 feet; thence North 75 degrees, 30 minutes East 352.8 feet; thence North 5 degrees, 50 minutes West 315.2 feet; thence North 74 degrees, 30 minutes West 548.2 feet; thence South 4 degrees, 15 minutes West 258.6 feet; thence North 89 degrees, 50 minutes West 435.7 feet to an eight-inch live oak; thence North 55 degrees, 45 minutes West 821.9 feet to a fifteen-inch post oak; thence North 85 degrees, 15 minutes West 407.6 feet; thence North 20 degrees, 0 minutes West 470.8 feet; thence North 21 degrees, 45 minutes West 524.3 feet; thence South 87 degrees, 50 minutes East 277.4 feet; thence North 1 degree, 50 minutes West 381.4 feet to a point in the South line of the H. Dikeman Survey; thence North 89 degrees, 50 minutes West along said line 349 feet; thence North 0 degrees, 30 minutes West 651 feet to a point which is the South corner of a tract acquired from Wm. Fund; thence North 40 degrees, 30 minutes East 919.3 feet; thence North 0 degrees, 40 minutes West 650 feet; thence South 28 degrees, 15 minutes West 1,130.5 feet; thence South 40 degrees, 0 minutes West 914.2 feet to a fifteen-inch live oak tree; thence South 76 degrees, 45 minutes West 879.3 feet to a fifteen-inch post oak; thence South 78 degrees, 30 minutes West 349 feet to a twenty-four inch post oak tree; thence North 31 degrees, 35 minutes West 396 feet to a point in the West line of the H. Dikeman Survey, which point is 217 feet north of the Southwest corner of said Survey; thence North 1 degree, 30 minutes West along said line 961.5 feet to a point; thence South 65 degrees, 36 minutes West 161.1 feet; thence North 88 degrees, 58 minutes West 191.6 feet; thence North 11 degrees, 18 minutes West 753.3 feet; thence North 18 degrees, 58 minutes West 1,103 feet to a point in South line of the C. A. Knykendall Survey; thence North 88 degrees 42 minutes East 150 feet, to the Southeast corner of a lease to the City of Fort Worth; thence North 8 degrees, 45 minutes East 2,238.8 feet; thence North 29 degrees, 20 minutes West 197.2 feet; thence North 64 degrees, 30 minutes West 161 feet; thence North 37 degrees, 0 minutes West 1,358.9 feet; thence North 43 degrees, 45 minutes West 1,222.2 feet; thence South 16 degrees, 15 minutes West 225 feet; thence South 25 degrees, 30 minutes West 1,072.2 feet; thence North 51 degrees, 45 minutes West 980 feet; thence North 20 degrees, 40 minutes West to the South line of the Sam Rosen tract, which is the Northeast corner of the lease; thence South 89 degrees, 17 minutes East along said South line to the West line of the Fort Worth and Azle Road; thence North 12 degrees, 50 minutes West 697 feet; thence North 10 degrees, 35 minutes West 528.6 feet; thence North 42 degrees, 41 minutes West 628.4 feet to the South end of the Ten-Mile Bridge; thence, leaving the limits of the City of Fort Worth, Northeastly in a straight line to the Southwest corner of the B. Whitley Survey; thence North along the West line of said Whitley Survey to the Northwest corner of said Whitley Survey; thence West along the North line of the D. C. Pace Survey to the Southeast corner of the Geo. S. Rall Survey, which is the Southwest corner of the Heirs of Benj. Thomas Survey, thence North along the East line of the Geo. S. Rall and J. H. Simmons Surveys to the South line of the J. N. Reed Survey; thence East along the South line of the J. N. Reed Survey to the Southeast corner of the said Reed Survey; thence North along the East line of said Reed Survey to the Northeast corner of said Reed Survey; thence Westly in a straight line to the Northeast corner of the J. P. Smith Survey; thence Northly in a straight line to the Southwest corner of the J. M. Crofford Survey; thence North along the West line of the J. M. Crofford, M. Townsend and J. S. Lee Surveys to the Northwest corner of the J. S. Lee Survey; thence East along the North line of the J. S. Lee Survey to the Northeast corner of said Survey; thence Easterly to the Southwest corner of the G. G. Young Survey; thence East along the South line of the G. G. Young and Volney Hall Sur-

veys to the West line of the West line of said Survey; thence South to the Southwest corner of said Wilcox Survey No. 34; thence South 89 degrees, 16 minutes East 2,959 feet to a point in the South line of said Wilcox Survey No. 34; thence South 14 degrees, 52 minutes East 122.2 feet; thence North 48 degrees, 29 minutes East 160 feet; thence South 86 degrees, 55 minutes East 163.5 feet; thence North 66 degrees, 51 minutes East 72.2 feet; thence South 35 degrees, 17 minutes East 163.3 feet; thence North 77 degrees, 40 minutes East 67 feet; thence South 56 degrees, 46 minutes East 168 feet; thence South 70 degrees, 39 minutes East 193.3 feet; thence South 15 degrees, 39 minutes East 171.8 feet; thence South 10 degrees, 49 minutes West 341.1 feet; thence South 43 degrees, 31 minutes East 249.7 feet; thence North 18 degrees, 34 minutes East 216.2 feet; thence North 8 degrees, 28 minutes East 327.5 feet; thence South 88 degrees, 14 minutes East 353.5 feet; thence North 28 degrees, 30 minutes East 144 feet to a point in the North line of the Wilcox Survey No. 33; thence South 88 degrees, 33 minutes East 1,709.9 feet along the said line to the Northwest corner of a 101.8-acre tract acquired from C. H. Haley; thence South 0 degrees, 24 minutes West 1,319.4 feet to the Southwest corner of said tract; thence North 88 degrees, 9 minutes West 888.4 feet to the Northwest corner of the Ella Young tract; thence South 24 degrees, 34 minutes West 778.6 feet; thence North 75 degrees, 12 minutes West 225.3 feet; thence South 78 degrees, 16 minutes West 336.5 feet; thence South 58 degrees, 17 minutes West 244.8 feet; thence South 1 degree, 17 minutes West 270.8 feet; thence South 56 degrees, 58 minutes West 133.4 feet; thence South 65 degrees, 46 minutes West 261.8 feet; thence North 73 degrees, 14 minutes West 751 feet; thence North 77 degrees, 29 minutes West 330.1 feet; thence North 55 degrees, 45 minutes West 477.8 feet; thence North 21 degrees, 54 minutes West 181.5 feet; thence South 70 degrees, 51 minutes West 128 feet; thence North 55 degrees, 45 minutes West 232 feet; thence South 88 degrees, 30 minutes West 383.1 feet; thence North 72 degrees, 23 minutes West 471.8 feet; thence South 55 degrees, 6 minutes West 363.8 feet; thence South 3 degrees, 31 minutes West 681.3 feet; thence South 71 degrees, 39 minutes West 347.2 feet; thence North 30 degrees, 13 minutes West 389.4 feet; thence South 59 degrees, 40 minutes West 336.4 feet; thence North 75 degrees, 3 minutes West 280.8 feet; thence North 43 degrees, 35 minutes West 583.4 feet; thence South 87 degrees, 39 minutes West 676.6 feet; thence South 45 degrees, 57 minutes West 655.8 feet; thence South 86 degrees, 18 minutes West 525.7 feet; thence North 70 degrees, 12 minutes West 556.7 feet; thence South 82 degrees, 49 minutes West 279 feet; thence South 75 degrees, 32 minutes West 769.9 feet to the Southwest corner of the J. Wilcox Survey No. 33; thence South 89 degrees, 59 minutes West 693 feet to the Northwest corner of the A. M. Clear Survey; thence North 0 degrees, 1 minute West 159 feet to the Northeast corner of the M. De LaGarza Survey; thence South 89 degrees, 59 minutes West 3,465.3 feet along the North line of said Survey to the Northwest corner thereof; thence South 0 degrees, 28 minutes West 4,981.2 feet to the Southwest corner of the Wilcox Survey No. 34; thence North 89 degrees, 59 minutes West 425 feet; thence South 0 degrees, 38 minutes East 2,627.6 feet to the South line of the North one-half Wilcox Survey No. 2; thence North 88 degrees, 32 minutes along the said line to the Southwest corner of the school lot; thence North, East and South to the said line; thence South 1 degree, 17 minutes West 791.1 feet; thence South 73 degrees, 17 minutes East 313.8 feet; thence South 25 degrees, 15 minutes East 134.8 feet; thence South 36 degrees, 19 minutes East 444.4 feet; thence South 27 degrees, 14 minutes East 702.7 feet; thence South 20 degrees, 58 minutes East 738.8 feet; thence South 79 degrees, 30 minutes East 168 feet; thence South 74 degrees, 2 minutes East 144.4 feet; thence South 60 degrees, 2 minutes East 319.4

feet; thence South 24 degrees, 11 minutes East 561 feet; thence South 59 degrees, 50 minutes East 247.9 feet; thence North 82 degrees, 45 minutes East 1,387 feet to a point in the East line of the Veau McDaniel Survey; thence North 62 degrees, 32 minutes East 1,386 feet to a point in the South line of the J. R. Rowland Survey; thence South 89 degrees, 22 minutes East along the said South line to the Northwest corner of the J. S. Hansborough Survey; thence, leaving the limits of the City of Fort Worth, Southwestly in a straight line to the Northwest corner of the B. L. Samuel Survey; thence South along the West line of said Samuel Survey to the Southwest corner of Samuel Survey; thence Southeastly in a straight line to the Southeast corner of the R. Bissett Survey; thence Southly to the Northeast corner of Block 30 of Arlington Heights, which is in the limits of the City of Fort Worth; thence North to the Northwest corner of 29 as originally platted, in the east line of Seventeenth Street; thence South along the East line of Seventeenth Street to the Southwest corner of Block 126 of second filing of Arlington Heights; thence East along the South line of the intervening blocks to the Southeast corner of Block 134, said South line being one block South of Helmick Avenue; thence North along the East lines of the intervening blocks to the South line of Block 30, said East line being one block East of Pentacost Street; thence east along the South lines of the intervening blocks to the Southeast corner of Block 34, said South line being a North line of Bonnell Avenue produced; thence South to the Northwest line of Valentine Street; thence Northeast along the said North line to the Southwest line of Hopkins Street; thence Southeast along said line to the Northwest line of Granbury Road; thence Northeast along the said line to the South line of the W. D. Conner Survey; thence East along the South lines of the said Conner and of the T. White Surveys to the North line of right-of-way of the Texas & Pacific Railway; thence Northeastwardly along said North line to the Granbury Road; thence North to the North line of said road; thence northeastwardly along said North line to the West bank of the Clear Fork of Trinity River; thence up the said West bank in a Southerly direction to the center line of the T. & P. Railway; thence running in a Southerly direction along the said West bank of the Clear Fork to a point where the same intersects the West line of the E. S. Harris Survey, thence South along the said West line of the E. S. Harris Survey to the Southwest corner thereof; thence South 64 West 442 feet to the Northeast corner of the A. B. Conner Survey; thence West along the North line of the Conner Survey 1122 feet; thence South 1408 feet; thence West to an intersection with the East line of Boyd Avenue produced; thence South along the East line of Boyd Avenue produced and Boyd Avenue to an intersection with the North line of the tract upon which is situated the Municipal Golf Course; thence West to the Northwest corner of said Golf Course tract; thence South to the Southwest corner of the said tract; thence East to the Southeast corner thereof; thence North along the East line thereof to a point 40 feet West of the Northwest corner of the E. Sutherland Survey; thence East to the East line of the Cleburne Pike; thence Southwestly and South along the said East line of Cleburne Pike to a point due East of the Northeast corner of the T. McCanne Survey; thence West to the Northeast corner of the T. McCanne survey; thence West along the North line of the T. McCanne Survey 262 feet to a point, thence South 600 feet to a point; thence East to the point of intersection with the East line of the Cleburne Pike; thence South along the East line of the Cleburne Pike to a point East of the Northeast corner of Horne Heights; thence West to the Northwest corner of Cole Highlands; thence South to the Southwest corner of Cole Highlands;

Continued from Page Three.

thence East to the East line of Wellview Avenue; thence South along the said East line of Wellview Avenue to the North line of Spurgeon Street produced; thence East along said North line of Spurgeon Street to the West right-of-way line of the Santa Fe Railroad; thence South along said West right-of-way line to the South line of the Seminary Hill Addition; thence East along the South line of the said Seminary Hill Addition to the West line of Reeves Avenue; thence North along the West line of said Reeves Avenue to the North line of Felix Street; thence East along the North line of Felix Street to the East line of Hemphill Street; thence North along the East line of Hemphill Street to the North line of Calvin Street; thence east along the North line of Calvin Street to the East right-of-way line of the M., K. & T. Railroad, running between Fort Worth and Hillsboro; thence in a Northerly direction along the said East line of the M., K. & T. right-of-way to an intersection with the North line of Pafford Street, East of the M., K. & T. Railroad; thence East along the North line of said Street to an intersection with the West line of South Pecan Street; thence North along the said West line of South Pecan Street to an intersection with the North line of the E. S. Ellis Survey produced; thence East to and along said North line of the Ellis Survey to the West line of the right-of-way of the main line of the I. & G. N. Railway, thence in a Northerly direction with the West line of said main line right-of-way to its intersection with the West line of

the spur track connecting the I. & G. N. main line with the M., K. & T. Railway line; thence in a Northwesterly direction following the West line of the right-of-way of said I. & G. N. spur track to its intersection with the West line of South Pecan Street; thence North along said West line to the Northwest corner of the George Hertzog Survey and the Southwest corner of the A. Stinson Survey; thence East along the North boundary line of the said Hertzog Survey to a point in the boundary line due South of an extension of the West boundary line of the B. F. Waller and the J. Sanderson Survey; thence Northerly along the said line to the Northwest corner of the S. P. Loving Survey; thence Easterly along the North boundary line of the S. P. Loving and the South boundary line of the E. S. Terrell Survey to the Westerly boundary line of the tract conveyed by the O. K. Cattle Company to the City of Fort Worth, and known as Cobb Park; thence Southerly, Easterly and Northerly along the lines of said tract to an intersection with the South line of the said E. S. Terrell Survey; thence East along said line to the West line of the J. Justice Survey; thence North to the Northwest corner of the J. Justice Survey; thence East along the North line of the J. Justice Survey to the East line thereof, which is the West line of the R. R. Ramey Survey; thence North along said West line to the middle line of the said Ramey Survey; thence East along said line in Tarrant Avenue to the East line of the said Ramey Survey; thence North along the East lines of the said Ramey and of the J. Tuel Survey to the South line of the P. Anderson Survey; thence East to the Southeast corner of the said Anderson Survey; thence North along the East line of the Anderson Survey to the South line of the right-of-way of the Texas & Pacific Railway; thence Eastwardly along said right-of-way line to the West line of the road called Tierney Road, which runs along the East line of the P. H. Ahler Survey; thence North along the West line of the said road to the North line of the Ederville Road; thence West along said North line about 100 feet to the West line of the Tierney Road; thence North along said West line about 867 feet to the Northeast corner of the Ed N. Shaw 12-acre tract; thence West along the North line of said tract and of the J. J. Sweet tract about 1,108 feet to the East line of an unnamed Street along the East side of Edgewood Heights; thence North along the East line of said Street to a point East of the Northeast corner of Edgewood Heights; thence West along the North line of Edgewood Heights to the Northeast corner thereof in the East line of the Wm. Edwards Survey; thence North to the Northeast corner thereof; thence West along the North line of said Edwards Survey to the Southwest corner of the W. L. Tandy Survey; thence leaving the limits of the City of Fort Worth, North along the West line of the W. L. Tandy Survey to the North-

U. S. Bureau of Engraving and Printing has, by the application of a thin layer of chromium, only 1-5,000-inch thick, to electrolytic plates used for printing paper currency, prolonged the life of the plates to over twice that of case hardened steel plates, and several times that of the nickel faced electrolytic plates prior to the application of the chromium upon them. This increased service is due to the extreme hardness of chromium, which is the hardest metal known. Chromium plating has long been known to be possible, but until recently it has not been commercially practicable. Subsequent tests have shown that chromium plating is likewise valuable on other types of printing plates, especially those used for long editions. It may also be useful on dies and gauges where extreme hardness is required, and may obviate case hardening them.

to the East line of an unnamed Street along the East side of Edgewood Heights; thence North along the East line of said Street to a point East of the Northeast corner of Edgewood Heights; thence West along the North line of Edgewood Heights to the North-east corner thereof in the East line of the Wm. Edwards Survey; thence North to the Northeast corner thereof; thence West along the North line of said Edgewood Survey to the Southwest corner of the W. L. Tandy Survey; thence leaving the limits of the City of Fort Worth, North along the West line of the W. L. Tandy Survey to the Northwest corner of said Tandy Survey; thence Northeast in a straight line to the South end of the West line of the J. Brockman Survey; thence East along a line between said Brockman Survey and the J. W. Haynes Survey and along said line produced to the Main Survey; thence East in a straight line to the Northeast corner of said Main Survey; thence Northeast in a straight line to the Northeast corner of the W.
