

# Board of Directors Meeting

June 16, 2026

## **Pledge of Allegiance**

I pledge allegiance to the flag of the United States of America, and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

## **Pledge of Allegiance to the Texas Flag**

Honor the Texas flag; I pledge allegiance to thee, Texas, one state under God, one and indivisible.

An underwater scene with light rays and bubbles. The water is a deep blue color, and there are many small, bright bubbles and light rays scattered throughout. The light rays appear to be coming from the surface, creating a shimmering effect. The overall atmosphere is serene and mysterious.

Agenda Item 2:  
**Public Comment**

---

An underwater scene with clear blue water. The surface is visible at the top, showing ripples and light reflections. Numerous small, bright particles or bubbles are scattered throughout the water, creating a shimmering effect. The overall color palette is various shades of blue, from light turquoise to deep navy.

Agenda Item 3:

**Consider Approval of the Minutes from the Meeting Held  
on May 19, 2026**

---

An underwater photograph showing the surface of the water at the top, with light rays and bubbles filtering through the clear blue water. The scene is serene and captures the play of light and movement in an aquatic environment.

Agenda Item 4:

**Consider Approval of Consent Agenda**

---

- Consider Approval of Change in Calculation of Retainage with Gadberry Construction for Electrical Room Cooling Improvements for Richland-Chambers High-Capacity Pump Station at Waxahachie
- Consider Approval of Change in Calculation of Retainage with BAR Constructors, Inc. for the ASR Well Demonstration Study - Surface Facilities Project
- Consider Approval of Annual Insurance Renewal for Property, Casualty, and Workers' Compensation Insurance Lines of Coverage with Texas Water Association Risk Management Fund

Agenda Item 5:

**Consider Approval of Purchase Contract with Ross Valve Manufacturing Company for Multi Orifice Valves at the Arlington Outlet and Section 5x15 Interconnect Facilities**

---

Jason Gehrig, Infrastructure Engineering Director

# Multiple Orifice Valves and Actuators for Arlington Outlet and Section 5x15 Interconnect

# Multiple Orifice Valves (MOVs) and Actuators for Arlington Outlet and Section 5x15 Interconnect

Arlington Outlet

Butterfly valve replacement with MOV

S5x15 Interconnect

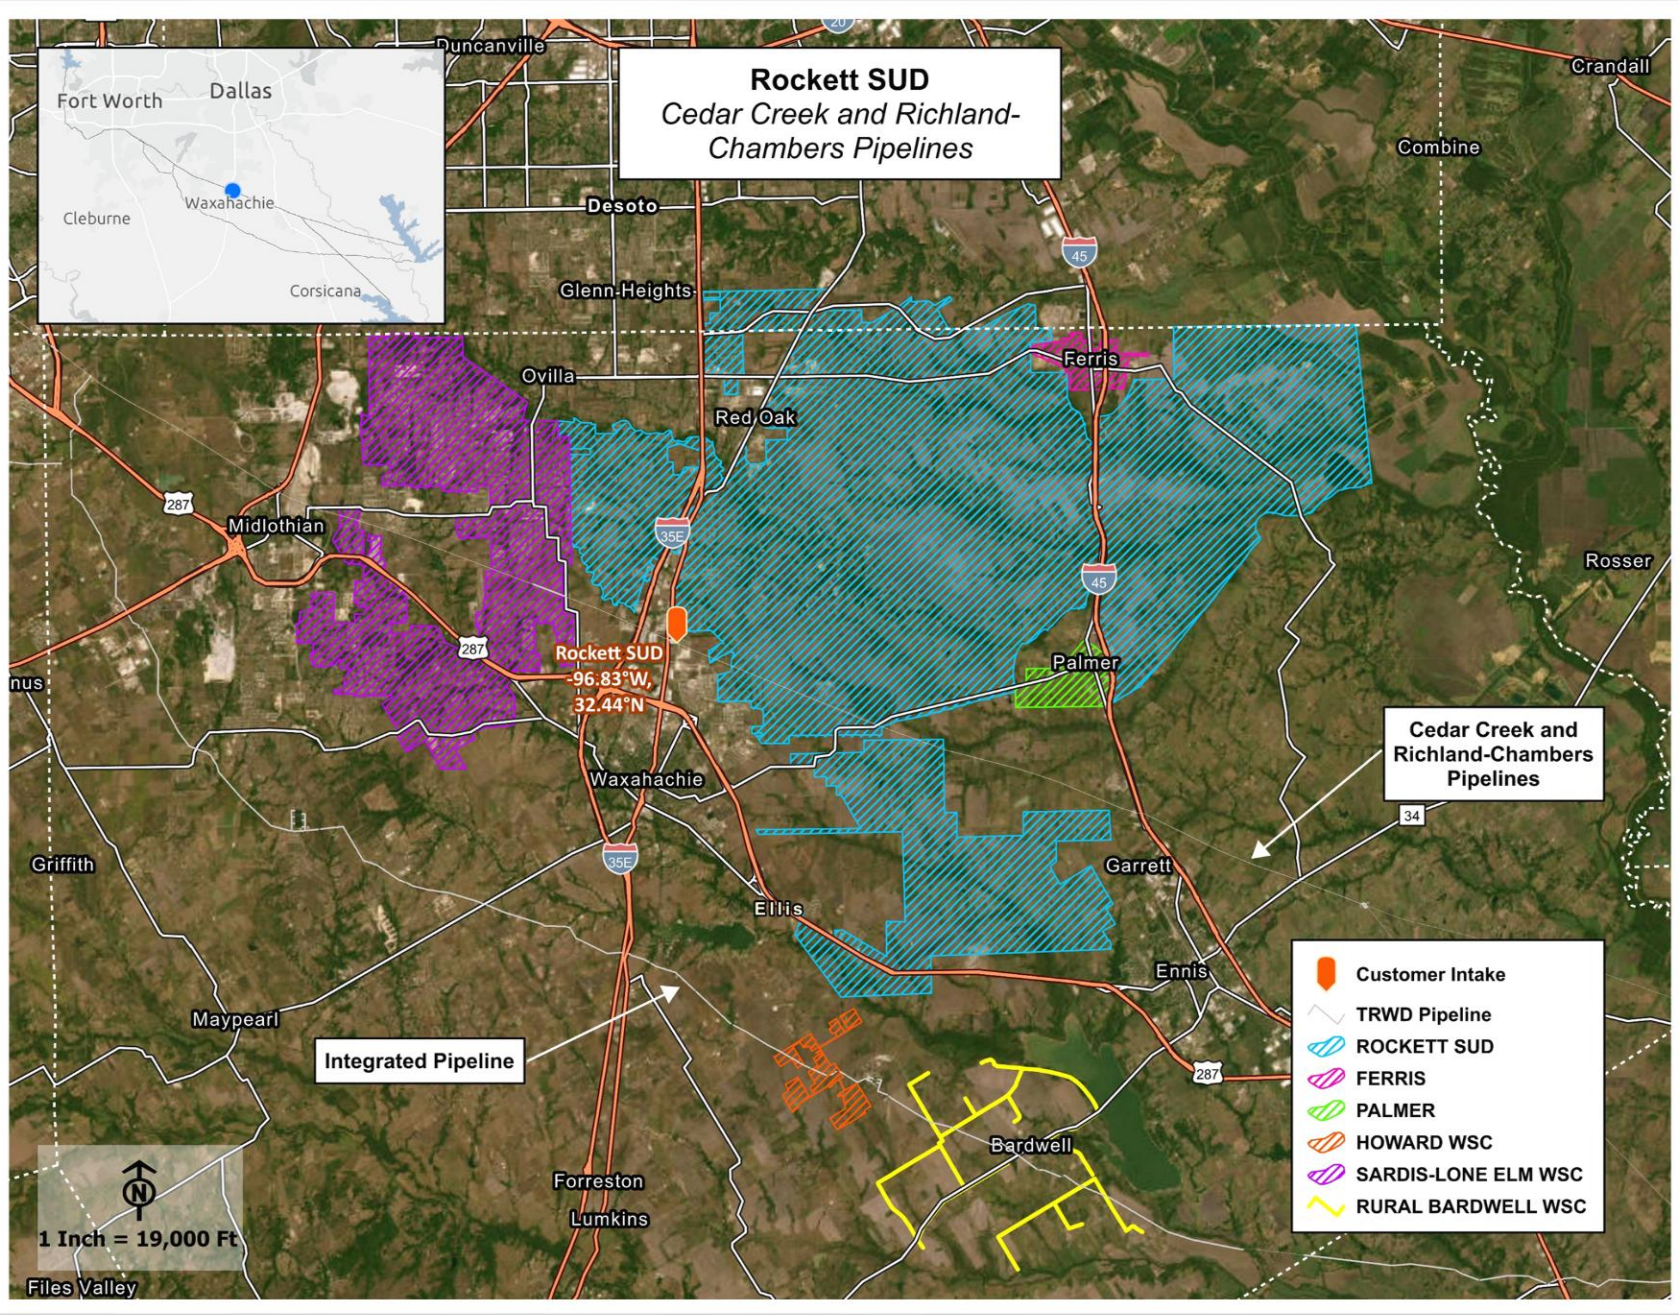

An underwater photograph showing the surface of the water with light rays and bubbles. The water is a deep blue color, and the surface is slightly rippled. Light reflects off the surface, creating a shimmering effect. There are many small bubbles and particles suspended in the water.

Agenda Item 6:

**Consider Approval of Fourth Amendment to Raw Water Contract with Rockett Special Utility District**

---

Zachary Huff, Water Resources Engineering Director

Agenda Item 7:

**Consider Approval of Ratification of Interlocal Agreement with Tarrant County for In-Kind Services for Panther Island Canal Project**

---

Susan Alanis, Panther Island Program Director

Agenda Item 8:

**Consider Approval of Contract with Ashlar Projects for Communication and Marketing Services for Panther Island Land Development**

---

Susan Alanis, Panther Island Program Director

The background of the slide is a close-up photograph of water. It features a series of concentric, circular ripples on the left side that transition into a dense field of small, clear bubbles on the right side. The overall color palette is a range of light blues, from pale sky blue to a slightly deeper, more saturated blue.

# **PRESENTATION**

## Water Resources

---

Rachel Ickert, Chief Engineering Officer

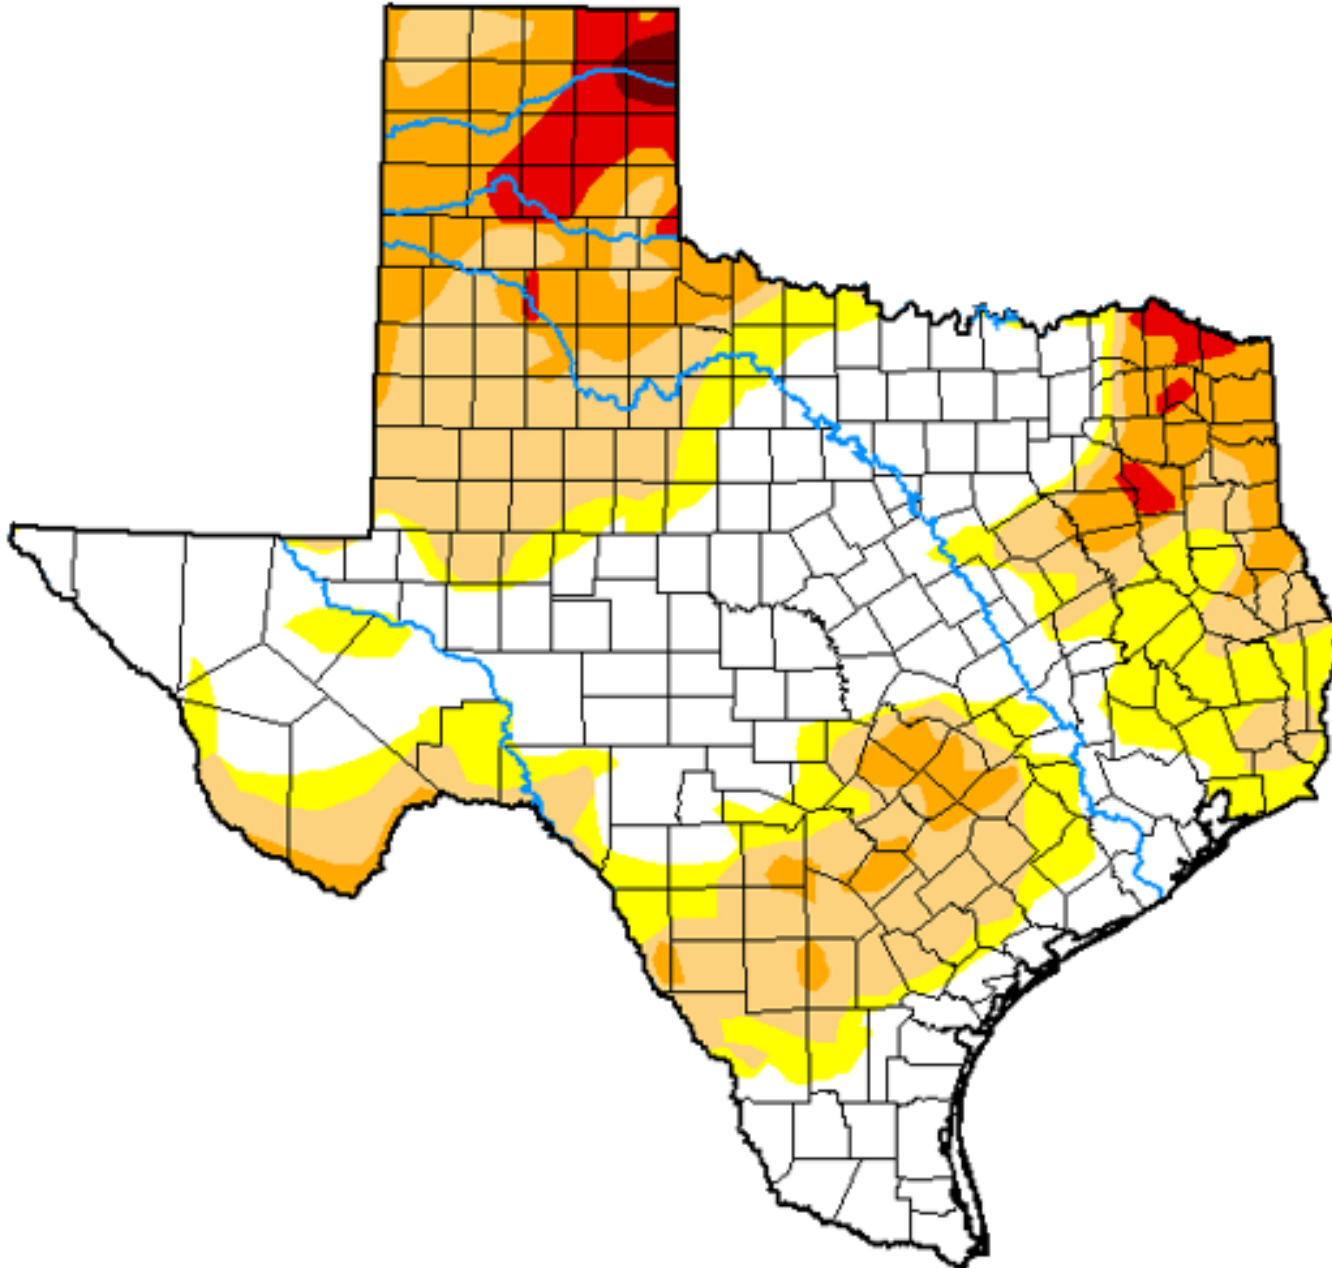

# June 9, 2026

(Released Thursday, Jun. 11, 2026)

Valid 8 a.m. EDT

Drought Conditions (Percent Area)

	None	D0-D4	D1-D4	D2-D4	D3-D4	D4

# U.S. Seasonal Drought Outlook

## Drought Tendency During the Valid Period

Valid for June 1 - August 31, 2026  
Released May 31, 2026

Consistency adjustment  
based on Monthly  
Drought Outlook for  
June 2026

Depicts large-scale trends based on subjectively derived probabilities guided by short- and long-range statistical and dynamical forecasts. Use caution for applications that can be affected by short lived events. "Ongoing" drought areas are based on the U.S. Drought Monitor areas (intensities of D1 to D4).

NOTE: The tan areas imply at least a 1-category improvement in the Drought Monitor intensity levels by the end of the period, although drought will remain. The green areas imply drought removal by the end of the period (D0 or none).

- Drought persists**
- Drought remains, but improves**
- Drought removal likely**
- Drought development likely**
- No drought**

*Note on QPF - QPFs depict the amount of liquid precipitation expected to fall during a specified time period in the future. Because precipitation can vary significantly over short distances, QPFs are reported as the expected "areal average" on a 20-kilometer (12.4 mile) grid. Several factors contribute to QPF estimates, including the current state of the atmosphere, modeled pressure systems, satellite trends, and manual adjustments made by forecasters.*

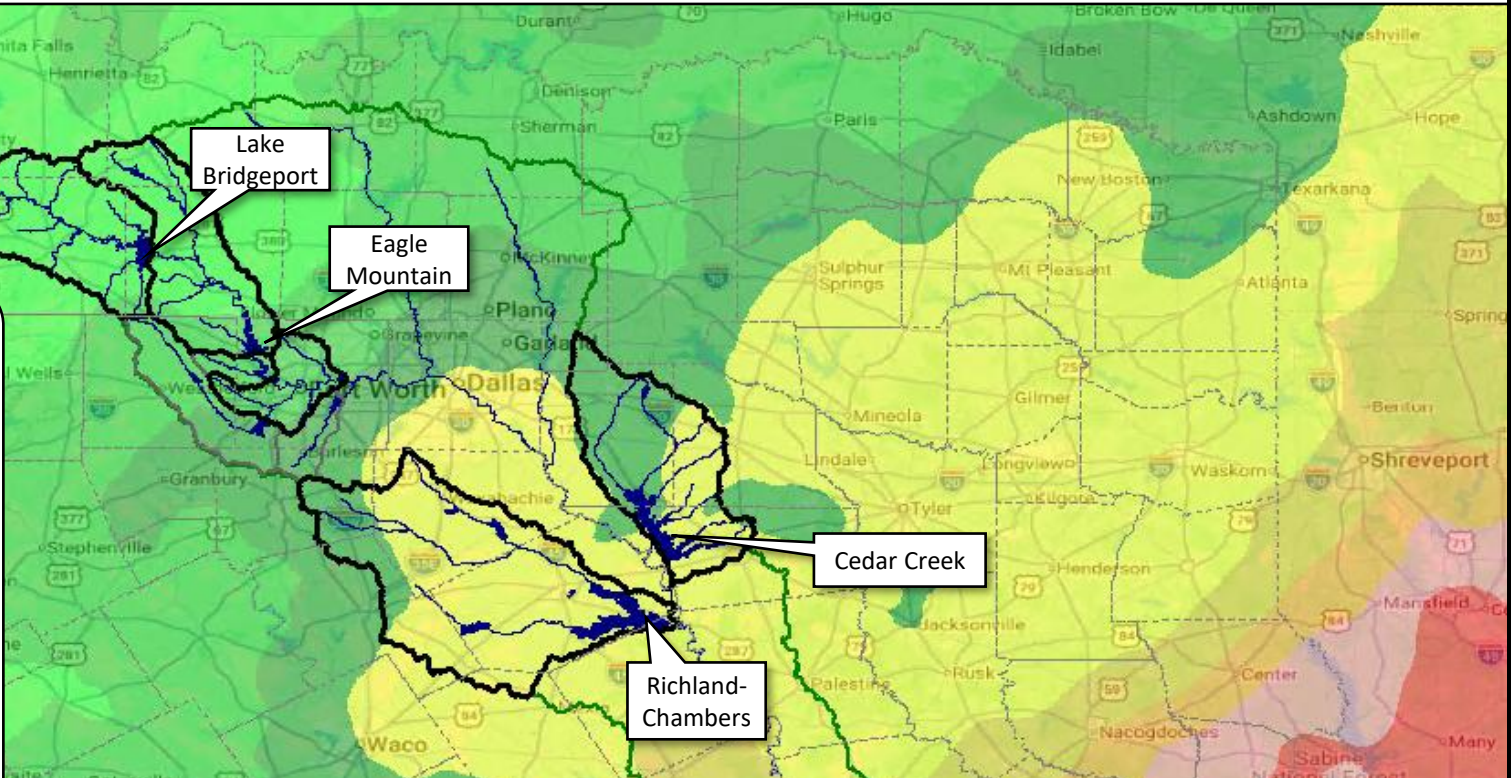

17JUN2026 (WED) - 21JUN2026 (SUN) Duration: 5 Days

### 8 to 14 Day Outlook

Above normal temperatures and precipitation are expected from June 22 to 28

**Temperature**

**Precipitation**

Reservoir	Forecast Total (in.)
BP	1.0
EM	1.4
CC	2.7
RC	2.7

NWS Forecast Time: 2026-06-15 1200 GMT

Precipitation forecast is obtained from NOAA's NWS and provided by the Weather Prediction Center (WPC). The data is processed and displayed using USACE Met-Vue software

The background of the slide is a close-up, high-angle shot of water. It features a series of concentric, overlapping ripples that create a textured, almost crystalline appearance. The water is a clear, light blue color, and the lighting highlights the individual droplets and bubbles, giving it a dynamic and fresh feel.

The background of the slide is a close-up photograph of water. It features a large, circular ripple pattern on the left side that transitions into a dense field of smaller, overlapping ripples and bubbles on the right. The water is clear and bright blue, with light reflecting off the surface, creating a shimmering effect.

# **PRESENTATION**

Recognize 50 Years of Service for Donald Mayes

---

Darrell Beason, Chief Operations Officer

# Donald Mayes | 50 Years of Service

Five decades of excellence reflected in every project.

The background is a vibrant blue underwater scene. Light rays filter down from the surface, creating a shimmering effect. Numerous small bubbles and particles are suspended in the water, adding texture and depth to the image.

Agenda Item 10:  
**Executive Session**

---

Agenda Item 11:

**Consider Approval of Authorization to Acquire Real Property Interests by Purchase for the Cedar Creek Pipeline Rehab Project**

---

Steve Christian, Real Property Director

An underwater photograph showing the surface of the water at the top, with light rays and bubbles filtering through the clear blue water. The scene is serene and captures the play of light and movement beneath the surface.

Agenda Item 12:  
**Future Agenda Items**

Agenda Item 13:

## **Schedule Next Board Meeting**

---

Special Called Meeting - Budget Workshop:

July 7, 2026, at 9:00am

Monthly Meeting:

July 21, 2026, at 9:00am

An underwater photograph showing the surface of the water at the top, with light rays and bubbles filtering through the clear blue water. The scene is serene and captures the play of light and movement beneath the surface.

Agenda Item 14:  
**Adjourn**

---

**WATER  
SUPPLY**

**FLOOD  
PROTECTION**

**RECREATION**

**CONSERVATION**

**FINANCIAL**
